HAZRAT MOHAMMAD (S.A.W)

571 A.D lit a new dream,
When Allah Sent a Person with blessings like a stream

He was very kind, and had a great mind,
And his love with people was blind

Hazrat Muhammad (S.A.W) was so great,
We all know the way he taught was straight.

He was a caring husband and a teacher,
And on the earth, he was the best creature.

Our Holy Prophet (S.A.W) showed great affection and love
And the rank which Allah gave him was all of the above

He was really very helpful
And his teachings were meaningful

His life ended, but not his story
His strive ended, not his glory.

پرچم

مرے سر کو فخر سے اٹھاتا ہے پرچم
چاند تارے کا نشان کہلاتا ہے پرچم
اٹھا کر زمین کی پستی سے ہم کو
آسمان کی بلندی پر بٹھاتا ہے پرچم
اس پرچم نے دی ہے ہم کو شناخت
تفریق کے داغ کو مٹاتا ہے پرچم
کئی سر کٹے، تب ہوا یہ سر بلند
ماضی کی یادیں دلاتا ہے پرچم
بلبل کو صیاد کے شکنجے سے چھڑا کر
ان آزاد فضاؤں میں اڑاتا ہے پرچم
اس وطن کی خاطر جان بھی حاضر
جس چمن کی ہواؤں میں لہراتا ہے پرچم
یہ ہے منزل خوشحالی کا رہبر
ترقی کا رستہ بتاتا ہے پرچم

ماں کاش آج میں اسکول نہ جاتا
 شاید تمہیں پھر سے دیکھ پاتا
 تیری آواز سننے کو کان ترس رہے ہیں
 دیکھو نا ماں بارودوں کے گولے برس رہے ہیں
 ٹفن میں دی تمہاری روٹی بھی نہ کھائی ہے
 ماں آج گولیوں نے میری بھوک مٹائی ہے
 پاپا سے کہنا اب مجھے اسکول لینے نہ آئیں
 دیکھ نہیں پاؤں گا انہیں میرا تابوت اٹھائے
 میرے جانے سے اپنا حوصلہ مت کھونا
 ماں مجھ سے ہچکڑ کر مت رونا
 میرے کھیلونے میری کتابیں میرا بستہ
 جانتا ہوں تیری آنکھیں دیکھتی رہیں روز میرا رستہ
 تیری یادوں میں تیرے خوابوں میں
 تیرے ذکر میں رہ جاؤں گا

MISS HAFSA KHUSH (SHAHEED)

Real heroes are those who spend their life caring, supporting, and helping others without caring about their own lives. Today I am going to share a real story of a real hero Miss. Hafsa Khush (Shaheed).

Miss Hafsa Khush (Shaheed), an intelligent and determined woman, began working at the Army Public School, Peshawar in November 2013. Her fellow teachers remember her as someone who was very punctual and professional. She never missed a class, was prominent among colleagues and also often arranged school activities for students. She not only has excellent command of her subject but students remember her as someone who wouldn't leave class without clarifying her student's concepts. Her friends and family members know her very loving and caring.

On 16 December 2014, six coward terrorists conducted a terrorist attack on the Army Public School, Peshawar. It was the time when students were returning from their recess and gathering in the school auditorium to attend day's last lecture. Suddenly a few terrorists stepped inside the

auditorium and opened brutal fire on innocent students and teachers.

On the day Miss. Hafsa was fasting and her students remember, despite having a chance to save herself and leave the premises, she chose to stay back with injured students. Her colleagues and students remember that heavy fire which was brutally killing the innocent students but Miss. Hafsa, without caring for her own life was trying to help evacuating as many students as she can. Then suddenly a bullet struck on her chest. She fell down badly injured. Blood was discharged as a stream from her body but she was still trying to stand up and giving instructions to her students to rush to the emergency exit. Shortly, two more cruel bullets struck on her body and trying to save students, Miss Hafsa Khush embraced martyrdom.

"Such Real great Heroes cannot be forgotten who sacrificed their lives fighting against terrorism and saving humanity!"

MARTYRED BURHAN MUZAFFAR WANI

In the present world for me the story of a legendary Indian Occupied Kashmiri (IOK) freedom fighter a 22-year-old boy martyred Burhan Muzaffar Wani is full of inspiration. He was born in September 19, 1994 in Tral area of Pulwama. His father and mother are teachers at government schools in Tral. He joined the armed struggle in October 16, 2010. Burhan was popular on social media as a commander of the largest indigenous Kashmiri freedom fighter's organization Hizbul Mujahideen. He is the one who has changed the nature of guerrilla warfare. He was a brave and innovative freedom fighter and a commander of Hizbul Mujahideen. He was on the same page of the All Parties Hurriyat Conference (APHC) to promote Kashmir's cause. His specialty was that he never hid his identity his real name was known to everyone. Dashing Burhan became the real face of Kashmiri freedom fighters and promoted Kashmir cause by using social media since 2011 to 2016. He shared his uniform wearing pictures from dense forests and lush green orchards in the south of IOK. He warmed and ruled over the hearts of the young generation of Kashmir. He moved from one area to another area at night and slept in day to change his location in south Kashmir. Burhan had a mature political approach he shared video messages and disagreed with the idea of separate residential colonies for Kashmiri Pundits and declared them the part of Kashmiri culture. He brought all militants in Kashmir to fight under an

umbrella against illegal Indian rule in IOK. He was a good cricketer and a fan of Shahid Khan Afridi. He leads many crackdowns against Indian army with the help of local people who helped him by throwing stones on Indian terrorist attacks which was clear depiction of his popularity and idealism by the people of IOK.

He took away the sleeping of Indian military terrorist for more than six years who finally announced one million Indian rupees on the arrest of Burhan Wani. The Indian army martyred Burhan Wani at Bumdoora village in Kokernag area on July 8, 2016. He was buried after being covered in Pakistani flag. More than one million people gathered at Eidgah Tral and offered 40 funerals of Burhan. Longest shutdown and curfew from July 8, 2016 to February 2017 was observed in the history of IOK to mourn the martyrdom of Burhan. The UN General Assembly session on September 2016 and declared him the icon of Kashmir's young generation for the struggle of right to self-determination

نئی حکومت کی مشکلات

بروقت حقیقی انصاف فراہم کرنا۔

خواتین پاکستان کی 50 فیصد آبادی سے زائد ہیں۔ ان کے حق وراثت، ان کی تعلیم، صحت اور روزگار کے لئے جامع اور مضبوط پالیسی کی تشکیل دی جائے گی اور اس پر فی الفور عملدرآمد کیا جائے گا۔ نئی آنے والی حکومت کے لئے سب سے بڑی مشکل یہ ہے کہ دو صوبوں میں ان کی حکومت اور ایک میں حریف جماعتوں کے ساتھ الحاق اور ایک میں پیپلز پارٹی کی حکومت ہے۔

نئی آنے والی حکومت کو ہر شعبہ زندگی سے متعلق بے شمار مسائل کا سامنا کرنا پڑا ہے۔ اس وقت سب سے بڑی مشکل ڈالر کی اڑان اور بیرون ممالک کے قرضہ جات ہیں۔ تعلیم، صحت، زراعت و خوراک، صنعت، بیرون قرض اتارنے کی کوشش اور غربت کا خاتمہ بھی بہت ضروری ہیں لیکن حکومت اپنے اندورنی معاملات میں الجھی ہوئی ہے۔

کسی بھی حکومت کو اپنی پارٹی کے ممبران سے لے کر اپوزیشن اور پھر غیر ممالک کی جانب سے مخالفت کا سامنا رہتا ہے اس لئے کوئی بھی حکومت جب تک اپنے منشور کے مطابق پالیسیاں مرتب نہیں کرے گی کامیابی کے جھنڈے نہیں گاڑھ سکتی۔

اگر کوئی بھی پارٹی اپنے منشور پر 50 فیصد بھی عمل کر لے تو آئندہ اس کی حکومت کبھی ختم نہ ہو لیکن حکومت کرنا پھولوں کی بیج نہیں ہے ہر روزنی مشکل کا سامنا کرنا پڑتا ہے۔

ان تمام مشکلات پر وزیراعظم پاکستان عمران خان قابو پانے کے لئے کوشش کر رہے ہیں، ان کا اور ان کی ٹیم کا یہ کہنا ہے کہ ہمیں پاکستان میں ہر قسم کی خرابی، کرپشن ورثے میں ملی ہے۔ عوام اپنے مسائل کا حل چاہتے ہیں اور اس کا حل اس میں ہے کہ موجودہ حکمرانوں کو صرف بیوروکریسی پر کنٹرول کرنا ہوگا کیونکہ بیوروکریسی سیاستدان کو کمزور کر کے خود طاقتور ہوتے رہے ہیں اور یہی چال وہ آج بھی چل رہے ہیں۔

25 جولائی 2018ء کے انتخابات کے نتائج سے پاکستان تحریک انصاف پاکستان میں حکومت بنانے میں کامیاب ہوئی۔ ہر پارٹی ایک منشور کے ساتھ انتخابات میں حصہ لیتی ہے اور اسی کے مطابق پانچ سال میں عوام کی خدمت کرنا چاہتی ہے لیکن حالات کے مطابق منشور اور پالیسیاں بدلی جاتی ہیں۔

پاکستان تحریک انصاف کا نعرہ دو نہیں ایک پاکستان ہم سب کا نیا پاکستان تھا اور منشور یہ تھا کہ:

ملک بھر میں یکساں نصاب تعلیم ہوگا۔
عوام کو یکساں صحت کی سہولیات فراہم کی جائیں گی۔
ملک کو قرض سے نجات دلانے کے لئے ہنگامی بنیادوں پر ٹیکس اصلاحات کا نفاذ کیا جائے گا۔

اداروں کو مضبوط کرنا، کرپشن کا خاتمہ، منی لانڈنگ کا خاتمہ اور پاکستان کا بیرون ممالک میں پڑا پیسہ واپس لانا تھا۔

سرمایہ کاری کو حوصلہ افزائی، سرمایہ کاری میں حائل رکاوٹوں کا فی الفور خاتمہ جس سے بیروزگاری کے خاتمے کا آغاز ہوگا۔

صنعتوں کی بحالی، نئی صنعتوں کا قیام، 50 لاکھ گھروں کی تعمیر اور ٹیکنیکل ایجوکیشن کے ذریعے روزگار کے مواقع پیدا کرنا۔

خوشحال کسان پاکستان کی ترقی کی بنیاد۔ کسان کو اجناس کے اچھے نرخ دلانا، سستے اور عمدہ بیج فراہم کرنا، جدید فارمنگ کو promote کرنا بجلی اور پانی کی کسان کو فراہمی یقینی بنانا۔

جنوبی پنجاب کو جلد از جلد علیحدہ صوبہ بنانا۔ بلدیاتی نظام کو بہتر کر کے بنیادی سہولیات کی فراہمی کو یقینی بنانا اور وفاق کو مضبوط کرنا۔

سیاحت کا فروغ، شجر کاری میں اضافہ، آلودگی سے پاک معاشرہ ماحولیات بہتر اور روزگار میں اضافہ۔

فرسودہ نظام انصاف اور پولیس کے معاملات کو بہتر کر کے عوام کو

MADE IN PAKISTAN

Pakistan is a God-gifted and highly blessed country. Pakistan has been blessed with everything so because of this Pakistan has multilateral trade agreements with many nations and international organizations as here are the resilient, brave and strong people. Pakistan is a land of pure people. The hardworking Pakistanis made Pakistan One of the best countries in the whole world in every point of view either as it is economical or anything else. Now Pakistan is also the member of the World Trade organization, part of the South Asian free trade agreement too.

People of Pakistan are hardworking and artistic. Pakistan has excelled in the field of sports goods. Pakistan is exporting such stunning sports goods Like Football, Soccer balls and other sport items. Highest quality footballs around the world are made in Sialkot.

Pakistan is blessed with fertile soil and brilliant climate conditions Pakistan has also fame for agriculture. It exports delicious oranges and mangoes. Pakistan is the sixth largest producer of oranges in the world. Textile and cottons, Pakistani Assembled Suzuki, Pak made Suzuki Swift, Cultus, attractive carpets and rugs, petroleum, chemicals, industrial raw materials.

Furniture, cement, tiles, marble, textiles, clothing, leather goods are the famous good that are exported to all around the world. Electrical appliances (Fans, Air conditioners, Washing machines) Gujrat is famous for electrical appliance in Pakistan.

Meanwhile Pakistan's handicrafts are its peak. Handicrafts of Pakistan have made it the traditional and amazing country. Traditional goods are remarkable because of its luxurious and marvelous designs. Like Multani caps, Alluring purpose, Painted pots, Tiles, Traditional shoes from Multani khussa to famous Peshawari Chappel, Pakistan Sindhi women dresses, Cot bed, Truck art etc. People in Pakistan are very hardworking and loving. They try a lot to make Pakistan such a beautiful and pleasant country. From an old farmer to the rich prime Minister contributes to make it more alluring and outstanding. When our country contributes it is not just in the favor of rich people the poverty-stricken will also fed pleased with it. As our country Pakistan is doing its best so now it is our duty to into involve our self in country's industrial growth.

Finally, go east or west my country (Pakistan) is best. As it is emerging in the community of nations strongly and rapidly progressing country of the world.

نئی منتخب کردہ حکومت موجودہ مسائل کو حل کر پائے گی

بہت کمزور قرار دیا ہے۔ حکومت کی اب تک کی کارکردگی سے کوئی مثبت صورت حال سامنے نہیں آئی۔ بجلی کی قیمتوں میں اضافے، ادویات کی قیمتوں میں اضافہ اور اس جیسی دوسرے اقدامات سے عام لوگوں کی مشکلات میں اضافہ ہوا ہے۔ اور انہیں نئی حکومت سے اپنی توقعات پوری ہوتی نظر نہیں آ رہی ہے۔ اور عوام میں مایوسی اور بے چینی میں مسلسل اضافہ ہو رہا ہے۔ ان مسائل کے ساتھ ساتھ تحریک انصاف کی حکومت کو داخلی محاز پر انتہائی ناخوشگوار حالات کا سامنا بھی کرنا پڑ سکتا ہے۔ تو ہیں رسالت کے ضمن میں حکومت عدلیہ کا رویہ عوام میں غصہ اور بے چینی پیدا کرنے کا سبب بن رہا ہے اور یہ ایک ایسا لاوہ ہے جو کسی بھی وقت پھٹ سکتا ہے اور جس کی لپیٹ میں آ کر حکومت کا امن و امان اور بین المذاہب ہم آہنگی برقرار رکھنے کی سب سے بڑی کوششیں ناکامی سے دوچار ہو سکتی ہیں۔

ہم سب کو مل کر دُعا کرنی چاہیے کہ وطن عزیز کی سالمیت اور امن و امان کی خاطر نیک نیتی سے کی گئی تمام کوششیں کامیابی سے ہمکنار ہوں اور اس کی عوام کو صحیح معنوں میں جمہوریت کے ثمرات سمیٹنے کا موقع میسر آئے۔

پاکستان تحریک انصاف کی حکومت کو درپیش چیلنجز اور مسائل کی فہرست طویل اور ان کا حل آسان ہی نہیں بلکہ صبر آزما بھی ہے۔ تاریخی اعتبار سے گزشتہ کئی دہائیوں کی بیڈ گورننس کرپشن، اقربا پروری، نا انصافی، مہنگائی، دہشت گردی اور آمریت نے ملکی سیاسی ڈھانچے اور ہمارے سماجی نظام کی بنیادوں کو ہلا کر رکھ دیا ہے۔

پچھلے پانچ سالوں کے دوران جمہوریت کی گاڑی کو پڑی پر رکھنے کے لیے حکومت اور اپوزیشن کو کئی بار سمجھوتا کرنا پڑا۔ اس کی وجہ سے مسائل میں مزید اضافہ ہوا اور پہلے سے موجودہ مسائل گھمبیر ہوتے گئے۔ حالیہ انتخابات میں عوام نے پاکستان کی تحریک انصاف اور عمران خان کی قیادت پر بھرپور اعتماد کا اظہار کرتے ہوئے یہ توقع کی کہ وہ ہی بھنور، میں پھنسی کشتی کو کنارے لگائیں گے۔ عمران خان اور ان کی ٹیم نے بھی بارہا اس مصمم ارادے کا اظہار کیا ہے کہ وہ وطن عزیز کی سالمیت ترقی اور خوشحالی کے لیے کام کریں گے۔ تجارتی اور کرنٹ اکاؤنٹ کے اربوں ڈالر مالی خسارے اور قرضوں میں جکڑی معیشت کی بحالی نئی حکومت کے لیے اہم ترین چیلنج قرار دیا جا رہا ہے۔ وہیں مالیاتی شعبوں کو چلانے کے لیے فنڈ کی دستیابی بھی نئی حکومت کے لیے ایک بڑا مسئلہ ہے۔ بہت سے بین الاقوامی تجزیہ نگاروں نے اپنی حالیہ رپورٹوں میں پاکستان کی اقتصادی حالت کو

THE NEWLY ELECTED GOVERNMENT WILL OVERCOME CURRENT CHALLENGES

Pakistan has elected its new political leaders who represent Pakistan Tehreek-e-Insaf (PTI). The party was founded by the then cricketer Imran Khan, who has become the 22nd Prime Minister of Pakistan. The country currently has got countless challenges to deal with. These mainly include; Economic Crisis, Corruption, Shortage of Water, Poverty, Illiterate and Unemployed youths and Political Sensitivity. However, according to a survey which was conducted in the mid-January, more than 50% of Pakistani believe that the newly elected government will overcome the current challenges of Pakistan. So, let's figure out why the people are much satisfied this time.

In fact, there are many reasons why people are so satisfied, and of course it is because of government's booming performance but let us list the major factors briefly.

1) Anti-Corruption Drive:

Despite the fact that National Accountability Bureau (NAB) is an independent institute yet the governments have been influencing it previously. But as the PTI government won the election after their anti-corruption drive, it has further boosted NAB's efforts. Even the stats show that the country is on its way to counter corruption.

2) Effective Foreign Policy:

The PTI government has proved to be effective in foreign policy making as the world leaders have

started acknowledging the country's role against terrorism and its masses' sacrifices. We have seen that Afghan War has come close to an end. Gulf countries' leaders' have been brought to Pakistan. And even Turkey has been visited by the new cabinet recently.

3) Boosting Economy:

At the beginning of the new government's tenure, we learnt that the country may require \$12 Billion from IMF to survive. However, the government's effective foreign policy, business reforms and credibility have convinced allies to fund the government and has attracted foreign companies to invest in every sector. This will resolve the country's economic crisis very soon.

There are years to come and nation seems satisfied in the initial phase of the PTI government.

نئی منتخب کردہ حکومت موجودہ مسائل کو حل کر پائے گی

حکومت ملک کی باگ ڈور سنبھالنے کے لیے اٹھارہ ارب ڈالر درکار تھے اور زر مبادلہ کے ذخائر ہولناک حد تک کم ہو چکے تھے۔ اب دو ہی راستے بچے تھے۔ اوّل دوست ممالک سے مدد لینا اور دوسرا آئی ایم ایف سے قرضہ لینا۔ وزیر اعظم نے دوست ممالک سے مدد لینے کا دانشمندانہ فیصلہ کیا اور دوست ممالک کے طوفانی دورے کر کے ملک کی معیشت کو آکسیجن فراہم کی جس کے نتیجے میں سہمی ہوئی عوام کو سکھ اور چین ملا۔

ماہرین کے اعداد و شمار اور حالیہ گیلپ سروے سے یہ بات واضح ہو گئی کہ موجودہ حکومت نے جو معاشی اقدامات کیے ہیں وہ درست سمت میں ہیں۔ اور یہ بات روز روشن کی طرح عیاں ہے کہ موجودہ حکومت تمام چیلنجز سے نمٹنے کی بھرپور صلاحیت رکھتی ہے۔

حالیہ انتخابات کے نتیجے میں قائم ہونے والی نومولود حکومت کو بے شمار سیاسی و معاشی چیلنجز کا سامنا ہے۔ پچھلی حکومت کی وطن دشمن پالیسیوں اور بے لگام قرضوں نے ملک کو تباہی کے اس دہانے پر لاکھڑا کیا ہے۔ جسے جدید خطوط پر استوار معاشی پالیسیوں کے سہارے تباہ کن اثرات سے بچایا جاسکتا ہے۔

مشرف حکومت کی پالیسیوں کی بدولت جی ڈی پی کے مقابل قرضوں کا حجم چالیس فیصد تک آ گیا تھا مگر ن لیگی حکومت کی ناعاقبت اندیشی نے یہ شرح چھپاسی فیصد تک بڑھادی۔ گویا ملک کو بیس سال پیچھے دھکیل کر نون منتخب حکومت کو مسائل کے انبار تلے دبا دیا۔ یہ کہنا بے جانا ہوگا کہ یہ مسائل حکومت کو ورثے میں ملے ہیں۔

موجودہ حکومت نے ماضی میں ہونے والے نقصانات کو مد نظر رکھتے ہوئے جو اقدامات اٹھائے ان کی تفصیل کچھ یوں ہے نئی

MADE IN PAKISTAN

There are many available choices in which Pakistan could succeed but those choices aren't presented to the other country in which we have been lacking behind which led us to having insufficient income to which we aren't upgrading it.

But to Develop the country so the easiest way to publish " made in Pakistan. "ON every product we export and have to increase the rate of product we are exporting so soon we can get ahead and increase our economy and rate of our currency which is Rupees is because.

This can help us to be famous and popular with global brands, these products can be available to the overseas Pakistani's Living, the product can represent Pakistan and its specialty and can be used by others. And when Pakistani's buys or others buy, we can get income to develop our country.

And currently there are some products which Pakistan is exporting to other countries such as Jeddah, Sri Lanka. And there are many other products .and those products are Fruit, football, Pickles, and Masalas's. Masala's are being greatly exported to other countries. which is "Shan" and these that, I believe, is a huge achievement for the brand as it has

managed to quieten down some stiff competition, especially with the availability of a great amount present in other countries and among wider brands Fruits many such as mangoes are being exported widely to kuala- lumpur by which many of them are being purchased and when Pakistani's sees them it sure gives a pride to them.

Football is now greatly exported all around the world even in the different countries. footballs are being needed by many other football teams and even the footballs were also exported to FIFA world cup 2018. By this many footballs are been exported which made a way for Pakistan to earn income. and show the artwork, the performance, and the durability of the footballs which played a massive role at FIFA in which it enabled the others to buy the football from which Pakistan can get income and increase its economy. And if Pakistan can keep going with this pace and would keep promoting and exporting their products to other countries so we can surely can increase our GDP and we can raise our economy and we can represent Pakistan by exporting finest products which Pakistan has and can be #1 in global markets soon.

DO YOU THINK THAT THIS NEWLY ELECTED GOVERNMENT WILL BE ABLE TO OVERCOME THE CHALLENGES PAKISTAN IS FACING

“An army of sheep led by a lion can defeat an the army of lions led by a sheep” (Alexander the great).

This means that no matter how weak your team is if you have the right leader you can defeat a strong team because they have the wrong person to lead them. Leadership is a lot that matters. If a leader is strong, dutiful, truthful and honest he or she can turn the table around. And when I think of all these qualities, who comes to my mind? The current prime minister, Imran Khan. After decades, Pakistan as around the right person to make our country better and prosperous in all aspects. The previous governments did not focus on the actual problems of our state, result our country faced the challenges of corruption, injustice and nepotism etc. Imran Khan is trying his level best to overcome these challenges by

working day and night. People trust him that is why they are donating wholeheartedly in various governmental projects.

Although it has not been long that the government took over, the progress is evident from the matter of fact that effective measures have been taken. Marking the step stones for making universities, shelter homes, new tourist sites, foreign investment plans, new business opportunities, establishing the rule of law and mainly conservation of water. Based upon all above mentioned factors, I strongly believe that this newly elected government will be able to overcome the problems which Pakistan is currently facing and will succeed in projecting the country on the road of success.

”حب الوطنی“ کا تقاضہ ہے۔

ہم قوم کو میڈیا پر پاکستانی مصنوعات کی تشہیر کے ذریعے آگاہی دے سکتے ہیں۔ جس سے پاکستانی مصنوعات کی مانگ ملک میں بلکہ بیرونی ممالک میں بھی بڑھے گی۔ ضرورت اس بات کی ہے کہ مصنوعات کی تیاری معیاری ہو۔ جس پر قوم نہ صرف اعتماد کرے بلکہ فخر کرے کہ یہ ہے ”میڈان پاکستان“۔

موجودہ حالات کا جائزہ لیں۔ تو ملکی معیشت کی صورت حال ابتر ہے۔ اس کو سنبھالہ دینے کیلئے قوم کی سوچ کو وقت و حالات کے تحت بدلنا ہوگا۔ لوگ خصوصاً نوجوان انٹرنیشنل برانڈ کی اشیاء کو خریدنے کے بجائے قومی مصنوعات کو خریدنے کا عادی بنیں۔ اور پاکستانی ہونے کا عملی ثبوت دیں اور ملکی معیشت کو مستحکم کرنے میں اپنا کردار ادا کریں۔ یہی حب الوطنی ہے اور یہ سوچ رکھیں کہ ہم کسی سے کم نہیں۔

قومی سطح پر ہونے والے مقابلے مضمون نویسی کے عنوانات میں ”میڈان پاکستان“ نے مجھے حیرت زدہ کیا کہ طفلان مکتب کو آگے حاصل کرنے کا موقع تو دیا گیا۔

پاکستانی ہنو، وقت اور حالات ہم سے یہی تقاضا کرتے ہیں پاکستان ایک زرعی ملک ہے اور یہ صنعتی ترقی پر گامزن ہے۔ ملک کی معیشت کی ترقی کا انحصار زراعت اور صنعت کی ترقی پر ہے ان کی ترقی سے ملکی معیشت مضبوط ہوگی۔ بیرونی تجارت کو فروغ ملے گا۔ اور زر مبادلہ کے ذخائر میں اضافہ ہوگا۔

لیکن بد قسمتی سے ملک کی درآمدات برآمدات میں توازن نہیں رہا۔ بیرونی تجارت نہ ہونے کے برابر ہے۔ جبکہ زرعی شعبہ خام مال اور صنعتی شعبہ تیار مصنوعات فراہم کر رہا ہے۔ لیکن قومی سطح پر بہتر مصنوعہ بندی کا فقدان ہے۔ ہم عوام میں شعور اجاگر کریں کہ پاکستانی مصنوعات کا استعمال کریں بلکہ ملکی مصنوعات پر فخر کریں یہی

WILL IMRAN KHAN AND HIS GOVERNMENT BE ABLE TO OVERCOME THE CHALLENGES

The cricket icon Imran Khan, by making an extended and dreary voyage of virtually 22 years after founding his political party in 1996, eventually became the PM of Pakistan in August 2018. His political party, Pakistan Tehreek e Insaf (PTI), flourished a pace over the last two decades and has become a ruling and well-celebrated party in Pakistan. Pakistan is passing through a critical stage and facing many challenges on the domestic as well international fronts. Unsurprisingly, the newly elected Pakistan Tehreek-e-Insaf (PTI) government led by prime minister Imran Khan has inherited multifaceted problems and faces myriad challenges that will need to be addressed immediately. Pakistan's economy is in bad shape. Its trade deficit is running into tens of billions of dollars and there is the risk of an imminent financial crisis. If that were not enough, militancy, terrorism and tense relations with foreign powers have made things worse. Furthermore corruption, unemployment, bad governance, population growth and upcoming water crises are aggravating the situation. Police, judicial,

economic and education reforms are the need of time to save the sinking ship.

Analysts have warned the new government will have to act fast as the country teeters on the verge of a balance-of-payments crisis. The budget deficit has grown steadily over the past five years, and foreign currency reserves have declined. The rupee has been repeatedly devalued, fueling inflation. Security has dramatically improved across Pakistan following a crackdown on militant groups in recent years. The Pakistan government need tackle the root causes of extremism, as militants can still carry out spectacular attacks.

Conservative Pakistan, with its limited family planning, has one of the highest birth rates in Asia at around three children per woman, according to the World Bank and government figures. That has led to a fivefold increase of the population since 1960, now touching 207 million, results from last year's census show.

Pakistan is on the verge of an ecological disaster, if authorities do not urgently address looming water

Shortages. Official estimates show that by 2025 the country will be facing an "absolute scarcity" of water, with less than 500 cubic meters available per person - just one-third of the water available in parched Somalia, according to the UN. Political initiative will be essential to building infrastructure to reverse the course of the impending crisis. There is also little in the way of public education on water conservation. This government will also have to deal with a number of nerve-wracking challenges pertaining to foreign policy. Efforts are required to bring India to the table in order to negotiate the Kashmir problem, and for water crisis between the countries.

The newfangled government will also need to ensure China stays committed to its planned \$65bn speculation in China Pakistan Economic Corridor (CPEC) that is anticipated to build direly-required infrastructure for Pakistan.

Dealing with umpteen challenges confronting the state-pertaining to the economy, water crisis, energy crisis, foreign policy, internal and border security, and civil-military relation- is genuinely a laudable deal. Khan will have to perform exceptionally to consummate his promises of eradicating poverty, opening 10 million jobs, depoliticized police, autonomous foreign policy, accountability for all. The PTI has struggled for 22 years to come to power, supported by the middle and lower middle classes. Its leader, Imran Khan, understands the real issues of the masses. He is a man of principle and he will take a stand on all these issues. He is an honest, sincere and visionary leader. He is supported by technocrats, intellectuals, and professionals of all fields. Imran Khan values the youth of Pakistan and expects innovative approaches to solve all issues. He has stood against corruption, against nepotism, and I am sure he will promote transparency and merit in his

tenure (2018-2023).

Although the crises Pakistan is facing are rather complex and deep-rooted, its people have trust in him that he has the capabilities to pull the nation out of all crises.

Imran Khan had not taken the oath yet, and was yet to form a government, due because of his strong personality, a visible change had been witnessed on the ground. The stock exchange is rising gradually on a daily basis. The business community and the common man in Pakistan have shown trust in the PTI and feel relief. Last mini budget also shows the commitment of Imran Khan and government to give relief to small entrepreneurs, farmers and trader doing export.

China, Saudi Arabia, Qatar has poured billions of dollars into the State Bank of Pakistan, more to be transferred soon. Saudi Arabia has pledged assistance already, while other friendly countries are at behind the PTI government and extending all possible support.

After forming a government, Imran Khan has introduced reforms and has made some hard decisions, unpopular ones. Police reforms have been announced. Similarly, health and education reform has been introduced. The Naya Pakistan Housing Scheme has been inaugurated. Ten Billion Tree Planation programs have also been started. Soon foundation stones of various dams will be laid. We, the present generation of Pakistanis, are willing to sacrifice for the well-being of the country and for the future of the next generations. We may face tough times for a short duration, but our children will have a bright future. We are volunteering to work hard and overcome our difficulties. But our country will take off economically and politically, and will gain its position in the club of developed nations.

کیا دورِ حاضر کی حکومت پاکستان کے مسائل کو حل کر پائے گی؟

جناب ثاقب نثار کے اقدامات کو سراہا اور ڈیم بنانے کے لیے فنڈ اکٹھا کیے۔ نہ صرف اتنا بلکہ موجودہ حکومت نے بیرونی ممالک سے رابطے تیز کیے اور انہیں سرمایہ کاری پر قائل کیا ہے۔ انشاء اللہ موجودہ حکومت کی پالیسیوں کی بدولت چند سالوں میں پاکستان خطے کی ایک مضبوط معیشت بن کر ابھرے گا۔

اگرچہ حکومت کم تجربہ کار ہے اور مشکلات اور مسائل بے بہا ہیں، لیکن ایمانداری، مضبوط عزم اور حوصلہ اور محب وطن سوچ ایسے ہتھیار ہیں جو کسی بھی سوئی ہوئی اور گری ہوئی قوم کو کامیابی کی بلندیوں تک لے جاسکتی ہیں۔

پاکستان اس وقت سنگین، معاشی بحران میں مبتلا ہے اس کے علاوہ خطے کی سیاسی صورتحال بھی نہایت تشویشناک ہے۔ ہمارا ہمسایہ بھارت ہمیں ہر وقت نقصان پہنچانے کی جستجو میں مصروف ہے۔ افغانستان کی صورتحال نہایت تشویشناک ہے۔ بین الاقوامی قوتیں امریکہ، بھارت اور اسرائیل ہمارے ایٹمی اثاثوں کو ختم کرنا چاہتے ہیں۔ گزشتہ حکمرانوں نے کرپشن کی تمام حدیں توڑ دیں اور ملک کا کوئی ادارہ ایسا نہیں جو اربوں روپے کا مقروض نہ ہو۔ پی آئی اے، ریلوے سے لے کر پاکستان اسٹیل مل، بینک، واپڈا، اور سوئی گیس تک تمام قومی ادارے مقروض ہیں۔

اللہ تعالیٰ کا بے بہا شکر ہے کہ اس نے ہمیں ایک نہایت مضبوط اور بہترین تربیت یافتہ فوج دی جو اتنی جانوں کے نظر آنے پیش کرتی ہے اور ملک کو اندورنی اور بیرونی سازشوں سے بچاتی ہے۔

موجودہ حکومت بھی پُر عزم ہے کہ اس نے کرپشن اور کرپٹ سیاستدانوں سے لوگوں کو بچانا ہے اور ترقی اور کامیابی کی راہوں پر اس ملک کو گامزن کرنا ہے۔ پانی کی شدید قلت کے باعث سابق چیف جسٹس ثاقب نثار نے قوم کو آگاہی دی اور حکومتِ وقت نے

PAKISTAN RAILWAYS

On my summer vacations first time through Pakistan Railway I went to Islamabad on Green line train, but I am very disappointed because we were charged for the ticket for Green line train but unfortunately due to shuffling, we got bogie of Jinnah express, which was quiet small, even AC was also not properly working there. When we arrived to Islamabad so it was raining there, due to which water started to come in, from the train roof, this is the condition of Pakistan railways. In return, I saw something after which I was very shocked when I and my father were walking in the corridor so we heard some voices like someone is throwing something, when we checked I felt very sad to see that the food which they served to passengers and the food which was left, the railway staff was throwing it out from the train. According to the World Food Programmed, 43 percent of Pakistan's population faces food insecurity and daily many people die due to hunger, but if the same food is given to a poor person, how happy he will be, the prayers will come out from his heart, but such people do not even have any concern with prayers because

they are senseless, those who insult food, what can we expect from them and when we asked them why they are throwing food so they gave us a very lame answer that they don't have space for storage but everything have a solution, if they wants so the food can be given to the needy people, when the train stops at different stations during the journey, we just need to use our mind and if we have a good intention so God will show us the way. Other than this our public is also very illiterate, when we were resting, we heard a voice then we checked and saw that someone threw stones in our bogie's window for fun, due to which our bogie's window was badly cracked. No one never spoils their stuff in such a way and Pakistan is our country and we should love our country even more than our life, because today whatever we are it's just because of our country and if we will have love for our country then we would also telecare of its things. We just point out the mistakes of our governors and administration but everyone needs to be correct, public too, so only then our country will progress like other countries.

THE NEWLY ELECTED GOVERNMENT WILL OVERCOME CURRENT CHALLENGES

'Naya Pakistan', the slogan of the newly elected government of Pakistan has caught the attention of a large number of people. Pakistan Tehreek-e-Insaaf, headed by the current Prime Minister, Imran Khan aims at transforming Pakistan into a Madinah like state. A state where women and minorities of the country will have equal rights and protection, where there will be no discrimination between the rich and the poor and the basic needs of the people in education and health care will be fulfilled. Despite having such highly progressive paradigms, the party has continued to face allegations by the opposition. These allegations started right from the day the results of the elections started pouring in on the television. The major of these accusations included rigging and stealing the mandate of the other parties.

Regardless of the attempt to impose all these obstacles in the way of much awaited and badly needed reforms and measures towards progress and development of the country, the Prime Minister of Pakistan has been striving hard to stabilize the derailed economy. Our Prime Minister along with his cabinet of 24 Federal Ministers is doing his best to attain the party's manifesto. However, the question arises that whether the newly elected government will really be able to overcome the current challenges or not.

The condition in which Pakistan has been handed over to Pakistan Tehreek-e-Insaaf is highly deplorable. The economy of our country is heavily burdened with costly foreign loans. To overcome this severe economic crisis, the government of Pakistan has to seek financial help from some monetary organization like the IMF. This is not something unusual, however, the media made a lot of fuss over it. The fact remains

that Pakistan has borrowed 21 times before from IMF since 1958, and never an issue was made out of it. And of course, the opposition which is always looking for an opportunity to criticize the government, continued to make false allegations.

Nevertheless, our hard-working Prime Minister and his cabinet are trying their best to revitalize and stabilize the economy and stock market by making every effort to increase the foreign investments. To overcome all such challenges, the government must take all necessary measures to avoid any further devaluation of Pakistani Rupee and rise in the value of the US dollar which is already soaring high at Rs. 157.50. This will help lower the foreign loans and also contribute to wards improving the economy. It also needs to amicably resolve the issue of water crises by building dams, which is already a do or die challenge for Pakistan. Moreover, prolonged electricity and gas load shedding, budget deficit and the ever-increasing prices of basic necessities must be brought under control. Only then, Pakistan Tehreek-e-Insaaf can succeed in delivering a 'Naya Pakistan'. All this, at the least, requires around 2 years for making all institutions corruption free and Pakistan a terrorist free state. In case Pakistan Tehreek-e-Insaaf fails to deliver its manifesto, it would probably be the first and the last time that the people of Pakistan have entrusted Imran Khan with this responsibility. Undoubtedly, the people of Pakistan are hoping against all odds that the Prime Minister Imran Khan's government will come up to their expectations and unlike their predecessors not disappoint them. May Allah be the savior of the much-suffered innocent people of Pakistan, Ameen.

MADE IN PAKISTAN

The label 'Made in Pakistan' is long lost somewhere in the past few years. The social craze of buying imported things has taken over the whole community. Our country produces good and fine quality products that are of export quality, but we ignore them and prefer to purchase the items tagged as 'imported'. A false impression in our minds tells us that they are the perfect products and will make us feel good. When we buy the local produce from the market it helps the economy and help the country to develop and become prosperous. We must work for the advancement of our own country by buying the locally made products, which are the effort of poor labor sitting in the underdeveloped and far flung areas where the basic facilities of life are not even available for them.

They survive and help for the betterment of the community sitting in their hay and mud houses and huts. These poor people are the real patriot and we being educated have lost the love and pride for our own country.

We need to promote the local purchase of the products that are made in the country starting from fruits and vegetables to clothes and other various things that are a part of our culture and society. We must develop the culture of promoting our own things by educating our elders and ourselves that we have to love our country and do good things for the development of our country. We have to be loyal and generous towards our country and everything that belongs to it and ultimately us.

We must quit buying and promoting things that are imported and try to make it possible in every manner to buy and use the things that will actually help us build a strong bond with our country and its roots.

THE NEWLY ELECTED GOVERNMENT WILL OVERCOME CURRENT CHALLENGES

Pakistan is passing through a very crucial period of history. For the previous few years it's not progressing according to the dreams of its founder's corruption, inflation, over population less education or nepotism are the major problems of Pakistan unfortunately this country could not have simple, sincere or honest leaders in the past. Now this is for the first time that people have selected their members on merit. A vast majority of people are hopeful that the newly elected government will seriously focus their attention on the problems of the country. They will work honestly and with full dedication to the progress of Pakistan the newly elected government seems to be very much concerned to eradicate corruption from all the departments of the land. They are taking interest in solving the basic issues of general public such as health, education, cleanliness, pollution and especially clean drinking water for every person every problem needs time to solve, so we as a nation should be patient or support and appreciate the newly elected government in all their efforts to solve our problems.

THE NEWLY ELECTED GOVERNMENT WILL OVERCOME CURRENT CHALLENGES

As the internet becomes more embedded into every aspect of our lives, governments will play a far more active role in ways that impact economy, civil rights and freedom of societies. General elections were held in Pakistan on Wednesday 25 July, 2018, after the completion of the five-year term of the outgoing government. As the results of the elections, the Pakistan. Threek-e-Insaf (PTI) became the single largest party at the national level both in the terms of votes and seats.

It is expected that the newly elected government will be confronted by numerous challenges. Presently, Pakistan is facing multidimensional economic challenges of different intensity. In August 2018, the Imran Khan government came into power promising "Naya Pakistan". The PTI 100 day tracker shows progress on all promises. The show has begun. Ever since the PTI government was sworn in, a situation had been developing and now it has matured up. They now know what exactly they can do and cannot do. The new government is being confronted with daunting challenges. Our country has balance of payment crisis, rising inflation, increasing unemployment, depleted foreign exchange, growing external debt and poor taxation systems. The first 100 days of his premiership took on symbolic significance. The new government promised to

improve the overall economy, creating jobs, improvement in agriculture of the country, increasing tourism and providing national security to the people of the country. The cricketing icon turned politician had already overcome many points on an agenda and is still working on more. Few of the goals he had achieved recently are:

- * Strengthened the FIA to curb money laundering
- * Signed agreement with 26 countries to maintain Foreign relationships
- * Improved the situation of the government hospitals
- * Recovering Rs 350 Billion worth of land
- * Introducing plantation campaign countrywide
- * Allotting land to build places for the shelter of Poor

Imran Khan has to overcome the country challenges without upsetting the delicate balance of power. He is a prime minister of Pakistan, understands the issues of the country. Imran Khan is being supported by great intellectuals and people of all professions. If Khan Changes Pakistan in the way he is trying to, it will be a greater miracle than any of those he achieved on the cricket pitch. Therefore we got to believe that newly elected government will overcome the current challenges.

THE NEWLY ELECTED GOVERNMENT WILL OVERCOME CURRENT CHALLENGES

Pakistan is passing a critical stage and facing many challenges on the domestic as well as international fronts. The newly elected government known as Tehreek-e-Insaaf (PTI) will overcome current challenges. The PTI has struggled for 22 years to come in power supported by the middle and lower middle classes. It is leader Imran Khan understands the real issues of the masses. He is the man of principal and he will take stands on all these current issues. According to me, he is an honest sincere and visionary leader. He is a man who believes in collective wisdom. He will own many new ideas or good suggestions while formulating new policies and bring reform to the outdated obsolete system inherited by his government. Khan's values the youth of Pakistan and expect innovative approaches to solve all these issues

and I am sure he will promote transparency and merit in his tenure. Although the crises Pakistan is facing are rather complex and deep rooted. Its people have trust in him that he has the capabilities to pull the nation out of the crises. For the incoming PTI government the most immediate challenge is the economy as the country is facing a severe crisis in its foreign exchange. Reserves and foreign debts are also a big challenge for the new government. At the domestic level youth employment is a big challenge, as are electricity shortages, inflation, law and order, money laundering, corruption, education, health care, clean drinking water and the environment. We the people of Pakistan have elected Imran Khan and we will have to stand with him until the complete and comprehensive victory of Pakistan is achieved.

THE NEWLY ELECTED GOVERNMENT WILL OVERCOME CURRENT CHALLENGES

Pakistan is passing a critical stage and facing many challenges on the domestic and international fronts. It's suffering many issues and problem also which need to be solved in order to be victorious. It is situated at a Geo-strategic location. It is the only nuclear state in the Muslim world. Pakistan is facing terrorism, extremism, ethnic divides and religious hatred as well as illiteracy and poverty. Pakistan has not much money left to meet foreign exchange of stuff and to cover the requirements. In general, the country is suffering severe crisis in its foreign exchange. The newly elected government is PTI (Tehreek-e-Insaf of Pakistan) under the president "Imran Khan". PTI had won 109 seats out of 251 races where counting had ended. The National Assembly has 272 seats in total, July 27th, 2018. PTI was established on 25th April, 1996.

Imran Khan is hardworking politician. He is able to cope with the condition. He will surely curb the problems of water, terrorism, corruption, the literacy rate in Balochistan, energy-crisis etc. main problem and point to discuss in Pakistan is about corruption. Corruption is illegibly done by Ex-politicians, which is

no proved clearly. PTI government will punish the defaulters so that, this mishap would be less likely to happen in future. Secondly, Pakistan is suffering water-shortage and this problem is in process by collecting dam funds to save rainwater to generate power such as electricity. This solution of building dams will cover water-crisis as well as energy supply. Some provinces in the country are highly affected by low literacy rate and poverty. Balochistan, for example, is a good resource to obtain energy, but people are not well-aware. The beautiful province's schooling system is needed to be enhanced and all these suggestions and ideas are given by the president: Imran Khan. He is trying to interact with China also to increase the friendship of countries. This is done by improving the treaty of CPEC (China, Pakistan Economical Corridor). Imran Khan had visited different countries to make resolutions. Imran Khan & his team members are trying to put their image by right decisions. The government will take some time, but being a faithful citizen. I would say that "It is sure that the newly elected government will overcome the current challenges."

PATRIOTISM

Pakistanis are known for their patriotism. Before heading on, I would like to highlight the fact that patriotism is defined as love and loyalty to our motherland. Pakistanis are enthusiastic but not patriotic, because patriotism does not mean to raise slogans, wear green paint, green post pictures or use hashtags like #pakzindabad #loveyoupak.

If we want to prove to be patriotic, we have to do something. First of all, we have to be loyal to our country, we have to fulfill duties. We have to pay back to this country. We have to obey the laws and make other people obey the laws too. We don't have to condone wrong and we have to raise our voices against the bad people and make our society a better and secure place to live in, and not be patriotic only on days like 14th August and 23rd March. Be a Pakistani unequivocally. Let's be United for a Better Pakistan.

MOM WITHOUT YOU I AM NOTHING

One morning, I woke up; the rays of sunlight fell right into my eyes. I skimmed my eyes and washed my face. I wore my uniform and went downstairs. At the dining table, I didn't find my mother. I searched for mother in the kitchen, her bedroom, the basement but I couldn't find her. I got exhausted and miserable after finding her for an hour. I thought to check at the neighbors' house so I went out of the house. As I opened the door there was a basket with a letter and a piece of newspaper in it. In that piece of newspaper there was a picture of a dead woman who got smashed by a car and there was a letter dipped in blood. It reads "You don't obey your mother that's why you are given a punishment by God, your mother will never return to you and you will be suffering very brutally.". The letter vanished the minute I read it. I got tensed, depressed and a feeling that I can't define in words. I was very scared I went to the mosque and started praying suddenly someone touched my eyes, it was my mother. In my whole life that moment was the most satisfying moment for me. I thanked God that this has been just a dream or presumed. I promised my mother that I will never disobey you. On that day, whether it was a presumption or illusion it taught me something that maybe any combination of words will ever be able to deliver that: "MOM without you I am nothing."

“Mom! Can you please check Wi-Fi connection? My internet has stopped working”. The boy shouted lying on the bed with mobile in the hand.

“this mobile has just ruined your life. Once you come back to home after school, you have nothing in your hand but a mobile phone. Don’t you study anytime in a day neither you have time for family.” Mom scolded the boy but it falls on deaf ears.

This trend has been seen by all of us in society these days. Though social media has brought a drastic change in our lives through technology, education, knowledge sharing, networking, and so the list goes on. But our generation has adopted it in a whole new way. Playing games online, chatting with friends, sharing irrelevant posts and every single life happenings.

This, in turn, has caused them destruction from the real world! Teenagers are so busy with their hundreds or even thousands of “virtual friends” over social media that they rarely have time for people around them. They feel disconnected while in the crowd, lack of emotional attachment and thus lack in communication skills. Studies have shown that increasing use of social media has negative impact on sleep. Poor sleep ultimately leads to stress and depression. Thus, they're all over life has been troubled.

Remember! nobody stops you to use social media, but utilizing it to enhance the productivity of your time is what more effective. Everything has some advantages and disadvantages; it is up to us how we use them.

DO YOU THINK SOCIAL MEDIA DESTROYS HUMAN INTERACTION AND REAL LIFE HUMAN RELATIONSHIPS?

There existed a time prior to the menace of social media when folks would sit down together with their families. After accomplishing their daily goals, they invested their time in strengthening their relations; they developed bonds that could not certainly be broken merely by time or distances. Back then, video calls and instant messages were not deemed mandatory to remain connected with overseas family members as the love in their hearts remained forever strong, never fading.

Today, life without Facebook, Instagram and Twitter, to name a few popular social media platforms, has become unimaginable. People associate happiness with social media. Happiness was once a matter of being together. That togetherness, today, is merely for taking selfies and posting them on social media. I wonder how many of these 'Facebook friends' would

actually be standing beside each other through thick and thin.

Every person has countless real-life problems, but Facebook paints their life picture-perfect for viewers, blinding them with numerous blessings in their own lives, giving birth to the deadliest of all seven deadly sins; envy, which wounds a person slowly but deeply. According to various recent studies, the use of multiple social media platforms is strongly associated with depression and anxiety among young adults, more than any other factor.

Social networking can give the youth a temporary feeling of exhilaration. But soon afterwards that feeling is replaced by hollowness which pulls us away from everything that is good in life. As of yet, we are still addicted to social networking at the cost of family ties.

What was the last time you gathered with your family and enjoyed a dinner? A month ago? Why? Because you were so busy in clicking pictures and posting them on Instagram, well you lost that precious moment!

In present time, the urge to check social media updates is more than the urge to enjoy with your friends and family on a nice picnic spot. We spend more time showing ourselves in a night pool party than actually enjoying that. You lose the chance to interact with others in the process of getting a better click than before. You care more about the trends on twitter than your sister needing help. Surprisingly, social media being a constant distraction only meant to keep you connected to the people by giving the best impression of yourself. Why only five

likes? Wasn't it worth enough? This is what our people do while neglecting our relationships. We remain activists on social media but reserved in our everyday life. Two persons using Facebook while sitting together interferes their feelings of connection and communication. Texting lacks the tone and feeling that can be seen in a face-to-face conversation. When social media influence your life you actually lose the ability to feel what's around you. An innocent emotion in your child's eye and look of displeasure on your partner's face no longer affects you.

So on your next holiday, switch off your social media apps and sense the feeling of being there. You would surely find it better.

“Social media is reducing social berries. It connects people on the strength of human values not identities.”

Social media is a collection of online communication channels dedicated to community-based input interactions, content sharing, and collaboration. Social media were invented in 1792 and the first social media application was “telegraph”. It was created to make relationships between different people and help them to communicate. It is fulfilling the primary purpose in a befitting manner. It is rapidly available to every individual for getting information and knowledge and to do research work and access the knowledge worldwide. This has made everybody self-sufficient and selfish. People have stopped visiting libraries and educated people. At the same time, it is being misused by many social players for their interest.

Nowadays, every person carries a cell phone and a

social media account. They don't give time to their relatives and family members. Social media is breaking the family bondage instead of making it. Social media relationships have replaced the blood and family relationship.

Social media destroys the human relationships. When social media were invented, only 1% of people used internet and social media and the left 99% used to spend time with their family and relatives. Nowadays, social media are spread all over the world. 24 hours people are busy in chatting and they have no time for their family members.

The government should take measures to educate the people about the beneficial usage of the social media. They should be told the benefits of social media and the negative impacts on life and socialites due to its wrong and over usage.

DO YOU THINK SOCIAL MEDIA CAN DESTROYS HUMAN INTERACTION AND REAL LIFE HUMAN RELATIONSHIPS?

Social Media, a word that everybody knows, everybody is aware of and everybody is addicted to. It is a barrier of communication and interaction between people. It's where you share your life, ideas, pictures, information with thousands of people. It was developed for the welfare of mankind, but now it's becoming the biggest threat to people. It was used to connect people but now it distracts people. Every other person is hankering, craving and desiring for it. People have become dependent on it and cannot spend a day without. Which assures the fact that social media destroys human interaction and human relationships.

Excessive use of social media has widened the gap between the people and this is the main cause that it is ruining human relationships. People spend their valuable hours on their cell phones watching posts of people we don't even know. But we don't have quality time to spend with our family and friends.

We waste our energy scrolling our cell phone's screen in spite of visiting our family and relatives to strengthen our relationships. We are not aware of anyone until or unless he/she posts a picture or status online. We text people on festivals but we can't spend time with them. We invest time to increase our number of social media friends instead of making our real life relations better.

It discourages people to interact with others rather than texting messages because of the negative use of social media, people are losing their abilities and have adapted to live in the world of technology, fake and mock relations rather than living as a genuine person with true emotions and sentiments of others, unfortunately we are living in the era where people make their feelings a social media status and others feelings a story. They don't know that what's in the mind of the person sitting next to them but are aware of a number of posts of a social media friend.

SOCIAL MEDIA DESTROYS HUMAN INTERACTION AND REAL LIFE HUMAN RELATIONSHIP

Social media is an outline media that encourages its users to contribute and give their feedback on a topic. It has blurred the line between media and audience. Social media is causing a paradigm shift in the way media works. Everyone with a cell phone is a reporter news on social media is not just broadcasting but it has transformed into a two way conversation "Community" a word that meant, a group of people living in the same plate or having particular characteristics in common, not anymore, a community of social media is a group of people who will never see each other personally, but share comment and make conversations on multiple topics for hours and hours.

Social media is an addiction and it has estimated 2.03 billion users worldwide. This makes up about 28% of the global population. Social media was originally made to connect, but is that its only usage? What else is it used for? Social media allows us to freely connect

to the world and share our ideas, which seems a good thing but it's not that simple propagation to hate, violence and degradation are some of the few negatives. Fake news nowadays is a hot new trend. It has become a substitute for real life human relationships and interaction.

It has certainly affected the social life of our surroundings. Social media has brought us near to those unknown living thousand miles away and for quite far from own living with us. The time which the parents were to spend of the grooming of their children is mostly spend on social media. The social binding of the people living together is diminishing gradually. We must use social media for our benefits instead of destroying our social life and social relations with our loved ones.

DO YOU AGREE SOCIAL MEDIA DESTROYS HUMAN INTERACTION AND REAL-LIFE RELATIONSHIP?

Today 7.7 billion people live on this earth in almost 4.2 billion people have access to the internet. So it means there are 3.397 billion active social media users. Every person has four to five accounts. Averagely the daily time we spend on social media is 116 minutes. Facebook Messenger and what app, handle sixty billion messages a day. There is a new social media user every 10 seconds. Therefore, it's harder for humans to interact with each other and their relations. Relationships are harder now because conversations become testing, arguments become phone calls and feelings become status updates. Social media has now become an important part of our life. Social media may appear to make our lives easier, but at the same time it complicates them most people are addicted to social media. Those people don't take a minute to look at their children's or parents. "It takes discipline not to let social media steal your time". Alenix Ohanian the children use social media too.

They worry less about their studies. Their parents don't care that what they are doing or sharing on

Social media "you are what you share" Charles Leadbeater. One post determines that what kind of person you are.

But social media is not that bad. It's their users who should decide what to choose Maslow's Hierarchy of needs proves that you don't need constant connections with society to survive. Social interaction is in the middle of our necessities to survive. We need it in balance to reach self actualization Facebook and other social media apps help us to know our friends lives without interacting with them, seeing their posts. It allows us to get more knowledge about the world.

In conclusion is social media not destroying human interaction and real life human relationships. That's because social media has given a voice to the voiceless.

DO YOU AGREE SOCIAL MEDIA DESTROYS HUMAN INTERACTION AND REAL-LIFE RELATIONSHIP?

I agree that social media has destroyed human interaction and relationships because social media can be so addictive that you would spend all your day sitting in front of the computer screen doing nothing but wasting your time social media is a great invention to connect people with one another but it can be harmful as well because as you spend all your day on social media you get introvert and you avoid human interaction because of lack of communication skills you get anxiety when it comes to communicate with other people and you tend to spend less and less time with your family you should always remember that social media should not control your life it should be helpful for you to get connected to the world but it should not disconnect you from the real world and because of friendships on social media because sometimes it can be so toxic it will scar you for a lifetime so you should be aware of what is good and what isn't good for you and if you are underage use it under supervision of your parents social media also affect our mind and habits specially for the new generation the source of social media like Facebook, Instagram, you tube, twitter, tiktok, WhatsApp it is only wastage, of students time they do not consider their attention on books studies hobbies they waste

their time on this social media source in my opinion the source of social media is good but it depends how to use it parents should check on their children when they use mobile phone. Teacher must spread awareness to student about social media bullying and government should ban content which spreads hatred bullying and abuse before social media bullying was something only done face to face however now someone can be bullied online anonymously today everyone knows what cyber bullying is and most of us have seen what it can do to a person and since screen hide our face you can even be jerk on sites without realizing it these online attack after leave deep mental scars and even drive people to suicide in some cases a distressing by product of social media can be its power to create feelings of jealousy envy, and low self esteem as a friend or family member captures every moment of their perfect life with Instagram others genially struggles to get by it is not inconceivable that relationships might be irrevocably damaged because jealousy leads to hurt anger and eventually boils over into harmful words actions that cannot be deleted as easily as a post or tweet.

Digital and Social media have become a huge part of today's society. Their cyber world exists parallel to our physical reality in that the internet, television, cell phone, all play a role in shaping who we are as individuals existing together outside of technology. But today we are going to discuss about how it is destroying our relationship & is corrupting human real-life interaction? How it is affecting on each and every one of our lives on a deeply personal level. As a society, are constantly feeling the need to be seen by massive amounts of people. We are growing more & more dependent on instant gratification and in order to feel included we are forced to post, instagram, snap, tweet, upload, pin, check in, swipe, like, share, react or message. Our real human connection is replaced by virtual relationships. The simple truth is that for the most part we're spending huge proportions of our lives living in digital & it is corrupting the way that we act with other.

The argument continues by first discussing the

impact that social media is affecting us as individual and changing the way we behave. it follows that social media is affecting the way we interact with each other. Over one quarter of young people survey displayed indicators of high levels of depression and the people who most frequently checked media were found to be 2.7 times more likely to develop depression than average, on the other hand, social media can ruin relationships. For example, if you have ever posted a story on social media which can make you fight with friends easily. Comments can easily start online arguments between people. All in all, social media is a metaphor for life. As these various robots are a metaphor for humans. We're losing real-life interaction and replacing it by depending on media and robots. Digital & social media are affecting our social skills & physical adaptation-our evolution.

Undeniably social media has become a vast portion of nowadays society. Social media is a realm itself, and many users claim that it improves social interaction, provides general knowledge and even is a source of entertainment. Of course, social media does have a few benefits, it helps in communication, assists with knowing and gathering sentiments, and many general and business tasks. But every social media source seems to have a drawback.

Social media is a parallel life?

Social media for the present generation is more of a hindrance, computers and many tech based gadgets are mostly manufactured to work that actually matters, and for entertainment purposes as well, but recent captivating social media applications have seized many people's attention therefore many people spent hours reading, texting, sharing memes, and making online friends. The social media is a metaphor for real life, its presence is worthless for the fact of its endless diversion. One can argue about how beneficial it is but more use of it for amusement purposes has been exceedingly time consuming.

Social media and our lives.

Social media is destroying human interactions as it lowers face to face communication, acutely leading to exiguous confidence and even ruins relationships with loved ones as people are so hooked to social media and their status there and not the real world. People are eyeballed to their phones and forget to experience life. Each time a person checks in a social media page he moves one step away from his family.

Boon or bane?

Social media are destroying human life and relationships for it prevents one from proceeding and focusing on valuable consideration. Albeit social media are adverse it all comes down to the users, we all must use it for utility.

The world has been advancing very rapidly since the 19th century, making media a very important part of our daily life. Everything has positive and negative side, advantages and disadvantages, likes and dislikes. Similarly, media can be useful as well as dangerous.

Nowadays, media have been playing a very crucial part in destroying human relationships, according to our religion, Islam, relationships have been neighbors have much importance in our life.

There are a lot of disadvantages of social media i.e. before going to sleep million of people do social surfing which affects their brains negatively. Real life relationship is being destroyed day after day. Nobody wants to meet someone face to face, they just interact with each other through messages. People try to interact with people

that are far away and in this them, which is putting negative effects on relationships.

The new generation, today, has no time for their relations. Today they don't have time for family gatherings. Today, youth does not find pleasure in their own house, that is actually and quite opposite in nature.

Yes, we do agree that social media destroys human interactions and real life human relationships by taking the time of any person that person should gift to his/her family.

DO YOU AGREE SOCIAL MEDIA DESTROYS HUMAN INTERACTION AND REAL LIFE HUMAN RELATIONSHIPS?

Social media have shaped many affluences in our life. It stands parallel to our today's physical world. It has altered our lifestyle too. The continual flow of internet, television, and cell phones etc. have left an inordinate impact on our life. But it is only one side of the coin, another side is awful.

Social media might have appeared to make our lives easier, but at the same time it has complicated them. By watching various television channels, we think we have gathered much information about the world and perhaps have known much more about the lives of the people, but it is not a fact. Knowing real life is that, when we meet them and know their feelings. Similarly, by using cell phones, chatting on Facebook and texting messages, we think it is our social life. But it is not so. Studies show that when we meet someone face to face, talk to him. It is real way to understand each other.

The burden of having to present oneself in a way that is acceptable to online friends has increased in anxiety. The fact that we have to be anxious about how we appear to "everyone" in cyber-society, adds unnecessary stress to our lives. Alongside, we have far more information accessible to us than we are programmed to have. Knowing too much about everything going on in the world through constant access to cyber reports requires us to be involved in it. We become apparently too busy caring about the people we hardly know inside these machines; then

we can no longer balance worrying about things with which we should be concerned, such as real-life relationships, skills, and (probably the most unfortunate) ourselves.

Social media, like face book and other social networking sites allow us to find out about our friend's "lives" without even having to talk to them - the media they choose to upload shows you. Television and movies show us models of perfect relationships so our real-life expectations of how others should act are altered. Films also show us hostile behaviors and sometimes make it seem okay to be an aggressive, violent individual. Similarly, video games actually allow us to *be* the violent character, which in essence can teach us to behave more aggressively with others or be confused about how to act overall.

The study has proven that social media has severely affected our moral character too. The children and young people remain busy in social media (internet and cell phone) chatting without taking care of their precious lives. Besides, due to ease of such media, diligent approach towards carrying out research work has been highly affected in education and as a result standard of intellectualism has been decreased.

In short, it is fact that social media has greatly destroyed human interaction and real-life human relationship.

DO YOU AGREE SOCIAL MEDIA DESTROYS HUMAN INTERACTIONS & REAL-LIFE HUMAN RELATIONSHIP?

Media is mass communication, a connecting all over the world that informs, entertains, and influences people. It is powerful because most of the people talk about what they hear in the news. Therefore, we can easily say media primarily control people's opinions' and beliefs. The media is influencing the minds of men, women, and children are negative ways. Because of the media, children are brainwashed to the point of violence, they went to carry weapons like the characters they play video games. The media can't realize the catastrophic damage it can create in the lives of individuals in the society and the extent of how it affects people mentally and physically. Different fashion magazines focus on losing exceptional amounts of weight in weeks and things like inexpensive plastic surgery. Adolescent girls are interested in losing weight & looking beautiful. A different advertisement creates an inferiority complex among young girls, like attaining fair complexion in a week. What these ads are teaching is

that those who do not have a fair complexion have no respect in this society. Allah has made each and every person beautiful and we all have equal rights. No one is superior to the other. But our teens, what they read in magazines and what they watch on television has a great impact on them. Media excels at presenting negative behavior to all teenagers. Whether it be disobeying their parents or exhibiting immodesty. We should do everything we can to make sure that the teenagers, of this generation and the leaders of future generations excel in making positive decisions rather than being a victim of the monster known as the media.

As a conclusion, our world is controlled for the most part by the media. The true purpose of the media must be objectivity impartiality, and balance between truth and knowledge not negativism, violence and lack of respect for one's own self & those around him.

SOCIAL MEDIA DESTROYS HUMAN RELATION AND REAL-LIFE INTERACTIONS?

Social media: As the word comes to our mind, we jump with excitement. Today's teen spends more than 24 hours a day consuming media. With the amount that teen now spends on media which leaves less time being active and spending time with family. Social media connects the world online in ways we have never seen, but it may be destroying people's unique social nature as human beings. I had a terrible dream last night that instead of meeting for a quick cup of coffee me and my friend texted back and forth for our day. I ignored a cute guy at the bus stop asking me time because I was too busy responding to a text. I spent far too much time on Instagram trying to catch up with my 1000+ FRIENDS most of whom I rarely see. Oh wait, that wasn't a dream. This technological detachment has become today's reality. As said my Einstein

"IFEAR THE DAY THAT TECHNOLOGY WILL SURPASS HUMAN INTERACTIONS. THIS WORLD WILL HAVE A GENERATIONS OF IDIOTS".This day is the recent world. Social media has completely transformed a

range of our life experiences. Consider travel it's not just the dodging selfie sticks that makes navigating skills harder, but tourist no longer even gaze at the monuments, piazzas or works of art. Instead they turn their backs and look at themselves on a screen. What do you do on social media? You share moments- moments of joy, of friendship, humor, and beauty. Ironically, by engaging with social media, you lose the moment. In your quest to connect virtually, you disconnect from your reality and the people in it. There arises a question. What are we doing with the 1000+ friends on social media? Why are we texting all the time? Seems like a big waste to me. Why have people around you when your phone is more entertaining? The people in your presence either choose to be around you or you wanted them to be around you. Don't respect them. Value each moment because when they are gone, they are gone forever. Let's make the relationships that count last and not rely on technology to do the job for us.

SOCIAL MEDIA DESTROYS HUMAN INTERACTION AND REAL LIFE HUMAN RELATIONSHIP?

Yes, I agree on the fact that social media destroys the human interaction and real life human relationship. Social media thinking about it quite a few things comes to mind but what wraps it all in a bundle is a digital life. A double life. A fake life. A life where you pause before an action as simple as breathing to think of the consequences that'll be thrown your way. A place where self-doubt and insecurity bloom as if set in the summer sun. where snapping a moment is deemed more worthy than living it. Where acting a peculiar way sets you apart, declares you an outcast. A place where backstabbing fake friends you've never met once in your life seem better the family you have at home that waited for you to speak for so long and when you didn't they wallowed in their own anxiety and self-pity. It has handicapped us to the

point where we can't move without updating our 'followers'. How having hundreds of fake relations is better than the three friends who actually care about you or that cousin who always tries to reach out? How about the mother that asks you how your days was hoping you'll open up to her. Or the father who's trying/tried so hard to provide enough so you never had to face that. Little did they know we brought it all upon ourselves. We need to realize that digitalization is not the key to a healthy human life. And we need to understand that when the time comes our 'internet friends' won't be there for us and our family and the people who held us close, who tried to reach out so many times will only be able to watch you thrash against the walls of your depression.

TRUE STORY OF A SOLDIER WHO HAS GIVEN HIS LIFE FIGHTING AGAINST TERRORISTS

This is a story of a soldier named Captain Jamshed. He was the only son of a widow and whose father martyred in the war of 1971, fighting against India. He was only 2 years old then his mother brought him in home town Jalal Pur Jattan. There he got an education in APS JPJ and got 2nd Position in FSC. His mother wanted him to join the army. She always used to tell him the stories of soldier and war and the story of his father's bravery. She has told her about her life's hardship, she faced how army takes great care of the families. She wants to inculcated respect for the army and love of country in him. Now the time has come when he joined army and started getting training. It was indeed a really thought but rememberable time of his life. Then came the time he became the Captain. A name plate of his name was attached to uniform. One day his commanding officer assigned him a special task. There was a threat alert of a terrorist attack in APS JPJ. The security was alert and all steps were followed carefully. One day while on regular patrolling, one side of the cantt where the school situated, a dark corner at night, Jamshed observed blinking of torch light against the wall. He

tried to search it. Not long, he heard some whispering. Nothing was visible enough. He informed the guards by whistle. As it was midnight, nothing was visible enough. He informed the guards by whistles. All the spot lights were switch on and moved in all direction. Behind the background of school, there was a van. The security team spread all over and firing started on of the terrorist pushed the button in his hand an in this attack, two guards were martyred. Captain Jamshed injured in this attack. The terrorist brought him into their van and they wanted him to took him alive to get information. But captain Jamshed pushed the driver to turn the van. It became out of control. Captain Jamshed found no way out, he said Kalma Tayyeba and turned the van toward the end of road. The van dropped from the top of hill to the down. With the huge thurder of blast, a terrorist died and Captain Jamshed was martyred. The town name was changed from Jalal Pur Jattan to Jamshed Pur Jattan.

”ماں“..... تیرے بغیر میں کچھ نہیں

مرغی کے ننھے بچے اپنی ماں کے پروں میں ویسا ہی محسوس کرتے جیسا ہم نے اپنے اینٹ سمیٹ کے آہنی گھروں میں محسوس کرتے ہیں۔ لیکن موسم برسات کی ایک کالی انہونی شام ان پر قیامت کا غضب بن کر ٹوٹی۔ مرغی کا ایک ننھا چوزہ دانہ چگتے ہوئے اپنے جھنڈ سے تھوڑی دور گیا۔ اچانک ایک بلی جو پہلے سے گھات لگائے ہوئے تھی۔ اس بچے پر جھپٹ پڑی۔ یہ دیکھتے ہی مرغی بے خوف و خطر بلہ کا حوصلہ لیے بلی سے بھڑکئی۔ بلی نے اپنے تیز دانتوں سے مرغی کو نوچ ڈالا۔ مگر پھر بھی مرغی اپنی چھوٹی سی چونچ سے بلی پر نیزوں کی طرح وار کرتی رہی۔ مرغی کی اس بلند ہمت کو دیکھ کر بلی نے وہاں سے دبکنے میں ہی بھلائی سمجھی۔ مرغی خون سے لت پت اپنے بچوں کو پروں میں سمیٹ لیا۔ مگر ننھی جان درد کی تاب نہ لاسکی اور ہمیشہ کے لیے جہان فانی اپنے ننھے بچوں کا ساتھ چھوڑ کر خالق حقیقی سے جا ملی مشہور سائنسدان ابوعلی سینا نے خوب کہا۔

”ماں کی محبت کی لازوال مثال میں نے تب دیکھی جب سیب چار اور ہم پانچ تھے۔ ماں نے کہا مجھے سیب پسند نہیں“

الفاظی احتصار سے کام لیتے ہوئے مجھے یہ کہنے میں مضائقہ نہ ہے

”ماں تیرے بغیر میں کچھ نہیں“

خالق کائنات نے دنیا کو بہت حسین بنایا ہے۔ اور دنیا کو خوبصورت چیزوں سے سجایا ہے۔ خدا نے انسان کو بے شمار نعمتوں سے بھی نوازا ہے۔ مگر خدا کی سب سے قیمتی اور لاجواب نعمت ماں سے یہ کائنات جس کے دم سے زندہ ہے۔ وہ ماں سے ماں کی بے پناہ اور بے غرض محبت نیک اور بد دونوں کے لیے ایک جیسی ہوتی ہے:

ایک دفعہ کا ذکر ہے کہ ایک گاؤں میں ایک مرغی تھی۔ اور اس کے چار چھوٹے مگر نہایت ہی خوبصورت رنگین پروں والے ننھے بچے تھے مرغی کی پوری دنیا اس کے چار بچے تھے۔ وہ اپنے اس مایہ ناز دولت پر پھولے نہیں سماتی تھی۔ جب وہ اپنے ننھے لاڈلوں کو ساتھ لے کر چہل قدمی کرتی تو اپنی بے زبانی سے مالک حقیقی کا شکر یہ ادا کرتی تھی۔ وہ دانے چگتی اور بچوں کو کھلاتی بچے بھی اپنی ماں کے ساتھ شیروں سی زندگی جیتے تھے انہیں کسی قسم کا خوف نہ تھا۔ مرغی جیسے ہی کوئی خطرہ محسوس کرتی۔ وہ کٹاک کی آواز نکالتی بچے بھگ کر پاس آ جاتے۔ اور وہ انہیں اپنے پروں میں چھپالیتی۔ اور خود محافظ بن کر دشمن کے سامنے سینہ سپر ہو جاتی۔ اس چھوٹی بے زبان مخلوق کی بلند ہمت کو دیکھ کر حملہ آور پسا ہو کر اپنا ظالمانہ ارادہ ترک کر دیتا۔

FRIENDS FOREVER

While I was retrospectively evocative, I vividly remembered the summer July when I had a harsh fight with Shanzay, my best friend. We always had those little laughs out of fights, but this time it was unusual.

Times and seasons changed and so do we. We moved our ways neglecting our eleven years of friendship. The carpool rides, sleepovers, exam study, parties... It was when we were sitting in the car, year later with hot chocolate in our hands, she disclosed to me about her schizophrenia. It was raining heavily outside as my heart rained millions of tears inside. I felt the guilt remorseful inside me. How could I not be there when she needed me the most? There was no way I could get her back. Her resilience made me unaware of the constant battle, pain she had been going through. Although she left silently but changed me entirely as a person. She taught me to be more patient, and with gratitude and empathy you need to step inside their shoes every once in a while, with this I carry her love, warmth and affection in my life till date.

FRIENDS FOREVER

"Don't worry about me" she said "It will be okay" I knew it wouldn't, I knew she would leave soon and not because she wanted to but because life was too unfair to her.

Life was taking her away.

We had plans; we had dreams that had been weaved in long hours of late-night conversations. Talking about living somewhere far away where no one would reach us, no one would hurt us, and it would be just us.

Now I sat beside her hospital bed as she took her final breath, with our promises of forever hanging by a thread.

TRUE STORY OF A SOLDIER

Today I am going to share a story of Captain Omer who is a cousin of my granny. He was martyred in 1977 on the border of Balochistan. He completed his duty and reported to main camp and just about to go home for his wedding. His fellow officer was having high fever so Captain Omer voluntarily joined duty and gave fellow rest. When their battalion reached at the borders enemies opened fire on them and after fighting bravely he got martyred. We all should appreciate his sacrifice he made for his friends and country without thinking about his wedding which was planned just after 1 week.

FRIENDS FOREVER

It was long ago me and my best friend whose name was Iman was my best buddy in school. She always helped me and kept me happy. But one day when I was in class 3, I made a terrible mistake. It was that I was so interested of making other friends that I forgot that who was my true best friend, and even when the other girls were ignoring me, I didn't even realize that Iman was sad and all alone.

So, when I saw this girl that was trying to steal Iman. So, we had this fight that who is going to sit with Iman. But I was shocked to see that even when I was not paying attention to her, she convinced the girl that she wanted to sit with me so that day I learnt a new lesson to always look for the true friend and stick with her until the end.

Pakistan army number 51263, Captain Rooh Ullah, 2 light (ex 125 I/c) commando (Baloch), resident of charsada, Khyber Pakhtunkhwa, had the honor to participate in Operation Police Training Centre (Quetta). He embraced Shahadat on 25-October-2016 at the age of 26 years, just two months before his marriage.

The brave Captain fought bravely against terrorists, who had entered Police Academy Quetta, holding more than two hundred hostages and killing more than sixty people. Captain Rooh Ullah threw himself over a grenade by the terrorist in the room, thus serving many innocent lives. He embraced Shahadat on 25-October-2016 and left behind an extraordinary tale of bravery, which would be remembered for all times to come.

He just said to his CO "Me jaa raha hun sir!" May Allah rest his soul in peace. A really humble and such a great person.

WITHOUT MOM I AM NOTHING

I want to tell the story of my mother.

My mother married when she was just eighteen-year-old, a man nine years her senior. They began their married life after two years this. They were blessed with a lively healthy child. They both were so happy. But unfortunately at that time my father died in an accident. It was the toughest time for my mother.

But she managed herself first for the future of her child, for me, her face so much trouble and made it possible for me to be who I am my mother had a great deal of troubles with me but I think she worked all day and earned for me to educate and fulfilled my all needs she isolate her socially. She tells me that she sometimes feels trapped underneath a mountain of responsibility that never allows her to invest in friendship, much less find another companion for life, even as she did not care about her health. My mother taught me many things in life except how when I look back in her life, I can see the pain she had endured and the hard time she had suffered.

After seeing my mother's life, I get to know without mother I am nothing.

Mom without you, I am nothing is a short thought on feeling that enlist in everyone's heart but not everyone understands this. This feeling relates to everyone's life. I have a story of my 15-year-old cousin who has lost her mother in a car accident after this accident her life has destroyed and we are so lucky that we have our mother as a greatest gift of god. The person who threw their mother away from themselves are really bad and unlucky, they don't understand the love of her mother. We all should must value the love of our mother. Mother's prayer is really important for our life.

FRIENDS FOREVER

When I was four years old, I had a best friend named Joshua. He was my best buddy. I used to hang out with him a lot, but then, as the years passed, he got shifted to Hong Kong. It was a shock for me but he had to go. After that yashad become my best friend. I used to have fun with him a lot. But he also got shifted to Thailand. Again I was in shock. I had many situations like this in my life.
I always never had a true best friend. Guess I'm not made to make friends forever.

FRIENDS FOREVER

My best friend is Salma because whenever I don't have lunch or money, she shares with me. Once I was in two classes could not open my zip, I was very hungry then I was sad salma saw me she said why are you sad? I explain my problem then she thinks about it then she said can you share my lunch with me? I said if I eat your lunch then what will you eat? Salma said it's ok. I said we will share salma said. Now we are friends forever.

EMPATHY

I feel your pain.

SYMPATHY

I am sorry that
you are
in pain.

WHAT SHOULD WE PREFER "SYMPATHY" OR "EMPATHY"?

WE all are familiar with the word Sympathy, so today I will introduce you to Empathy.

Empathy is the ability to not only detect what others feel but also to experience that emotion yourself. Empathy is an act of understanding the feelings of others, be it their pain, happiness, warmth, gratitude etc... It is said that no human being can ever be called a human unless he learns the fact of Empathy. It's only a factor that reminds us who we are and our purpose of being here. It's only animals who don't feel the pain of other animals, only the human has such quality.

All of us are familiar with a story of a lame girl who couldn't play with children of her age due to her broken leg but was always eager to play with them; her mother was very much concerned about her and was keenly empathized about her feelings. Once when she happens to go out at a pet shop with her daughter where the daughter finds many beautiful pets of the world, while watching them her eyes took her to a baby dog who was looking with a sad pale face, when she enquires about the sadness of that puppy her heart moved with a great

pain when she knew that the puppy is lame and couldn't walk/run like other puppies, she at once decided to adopt the pet, because she knew how it feels to be in such condition as she too had a broken leg. Had she wanted; she could have had a perfect puppy pet that can do all well but she chose the one with broken leg.

Remembering the moral of the story, which moved me to great extent that one should have the emotions to feel the pain of someone and must always be keenly ready to help all be it a friend or foe? The most beautiful people, known are those who are known defeat, known suffering, known struggle, known loss and have found their way out of the depths. These people have an appreciation, a sensitivity, and an understanding of life that fills them with compassion, gentleness, and a deep loving concern, because they are the one who know how it feels to be failed, fought, sacrificing, losing the loved ones and top of all how it feels to be in pain.

 آج بھی دادی جان تسبیح ہاتھوں میں لیے بیٹھیں تھیں۔ مگر چہرے کی وہ بشاشت کہیں کھو گئی تھی۔ ایک آن میں کانوں میں گھنٹی کی آواز سنائی دی۔ اماں نے دروازہ کھولا تو ان کے شہید بیٹے کا دوست حزیفہ گردن جھکائے بے چینی کی حالت میں کھڑا تھا۔ اسکو دیکھتے ہی اماں کے ذہن پر پرانی یادوں نے دھاوا بھول دیا۔ وہی خبر، وہی ہجوم، وہی تابوت ان کی نظر سے ایک تلخ یاد بن کر گزرنے لگے حذیفہ نے نہایت ادب سے اماں کے ہاتھ میں عمر کے نام کی تختی دی۔ عمر نے پہلی مرتبہ یہ تختی اپنی وردی پر لگائی تو اماں سے کہا تھا کہ یہ تختی میری وردی سے تب اتاری جائے گی جب میں شہادت کے عظیم رُتبے پر فائز ہوں گا۔ یہ آپ کے سپرد کردی جائے گی۔ آپ اسکو سنبھال کر رکھیے گا بالکل ایسے ہی جیسے آپ نے مجھے سنبھال کر رکھا۔ یہ الفاظ اماں کی یادداشت پر حاوی ہونے لگے اور پل بھر میں ان کی آنکھیں نم ہو گئیں۔ حزیفہ نے گھر کے ماحول میں تبدیلی محسوس کی اور پھر عمر کی بہادری کی داستانوں کی کتاب کھول کر سب کو سنانے لگا۔ اسکے مطابق عمر نے اپنے جرات مندانہ وار سے دہشتگردوں کے گروہ کو ڈھیر کر دیا تھا مگر ایک دہشتگرد کی رائفل سے نکلے ہوئی گولی اسکے سینے میں پیوست ہو گئی اور اسکی شہادت کی وجہ بنی۔ ان واقعات نے اماں کا حوصلہ بڑھایا اور انہیں اس بات پر فخر ہونے لگا کہ۔
 ”وہ ایک شہید کو جنم دینے والی عظیم ماں ہے“

مارچ کی حسین صبح ہر طرف پرندوں کے پھد کیوں کا جلوہ عیاں تھا۔ تمام اہل خانہ اپنے کاموں میں مگن تھے۔ دادی جان ہاتھوں میں تسبیح اٹھانے بچوں کی مستیوں پر مسکرا رہی تھیں ابا جان اخبار تھامے گہرے تفکر میں تھے کہ اچانک سے فون کی گھنٹی بجی۔ اماں اور چچی خانے سے نکلیں اور یہ سوچ کر خوش ہو گئیں کہ ان کے دلارے کو آخر آج ان کی یاد آ رہی گئی۔ سلام و آداب کے پیش کرتے ہی ایک خبر نے ان کو دہلا کر رکھ دیا۔ ایسا معلوم ہوا جیسے دنیا کا منظر بدل گیا ہو۔ ان رنگینیوں پر تاریکیوں نے غلبہ حاصل کر لیا۔ ایک پل میں گھر میں صف ماتم بچھ گئی رشتہ داروں اور لوگوں کا ایک ہجوم جمع ہونے لگا۔

عین بارہ بجے ایک ایسبولینس گھر کے صدر دروازے پر کی اور اس سے سبز ہلالی پرچم میں لپٹے تابوت کو نکالا گیا۔ یہ جنازہ اس دھرتی کے عظیم سپوت عمر کا تھا تابوت کو دیکھتے ہی تمام اہل محلہ اور رشتہ دار والد کی قسمت پر رشک کرنے لگے۔ اسی لمحہ ابا جان اگے بڑھے اور بڑے فخر کے ساتھ اپنے خوبو بیٹے کے جنازے کو سلوٹ پیش کیا۔ زندگی ایک بہتا دریا ہے، چاہے حالات کیسے ہی کیوں نہ ہوں اسے رواں رہنا ہے۔

مگر ایک خلل رہ گیا، گھر کا سب سے چہیتا فرد تھا! معمولات زندگی دوبارہ سے رواں ہو گئے۔ ہاں گھر والوں کو تنہا چھوڑ کر اگلے جہاں پرواز کر گیا تھا۔ اماں اپنے دل کو اس بات سے تسلی دیتیں کہ

FRIENDS FOREVER

It's funny how people don't realize the loss inflicted by certain events where there has been grave loss. For example, the newspapers tell us about a gas explosion with 10 casualties. But what we don't see is the perspective of the ones inflicted, the aftermath and how it had an effect on the inflicted. So, I'm sharing my perspective of what happened on December 29th, 2009.

Our winter holidays were nearing its end, so my friends and I decided we'd better not leave the remaining days to waste. The winter fair was in town and we decided it was a good idea to go there. We decided a time of 6:00pm, and with permission from our parents, we met just outside the main entrance. The venue for the fair was a large park which was at a distance of 5 minute walk from my house, so there wasn't any hustle in reaching the fair.

After saying 'hi' to each other and counting our money, we headed inside. It was dark and the lights of the many rides were shining brightly, which definitely appeared attractive to the tourist's eye. We went on the Cyclone, a rollercoaster of heights that I was afraid of at first, then the Whirlwind. We felt puckish and ate at the hot dog stand.

We walked aimlessly for 10 minutes and we were about to pay for our tickets for the bumper karts when I noticed I had forgotten my wallet at the hot dog stand. I told the others to go on without me while I fetched my wallet.

When I reached the stand, an ear-splitting sound of metal wrenching filled the air. Fear seeped through my veins and I looked around trying to make sense of

what had happened. The machinery missed me by inches. It turned out that the Whirlwind had snapped off its axis due to poor maintenance. A large hunk of metal hit my head, blurring my vision. I held my hand tightly upon the point of impact on my head and blood seeped through my fingers. I wanted to cry, be sick and scream all at the same time, and I probably would have if it weren't for the familiar cry of Ali, bellowing from behind. He was the one who gave us the idea of the fair and was my best friend at the time. A switch of motivation triggered inside me. I saw his pain was much greater than mine and he needed more help than me. His face was almost unrecognizable. Flesh was exposed to the surrounding and his shirt was drowned in blood. I saw the bone of his right leg and that it was very nearly about to fall off.

Ali was a bulky figure and I knew I wouldn't be able to drag him out of danger without his leg falling off. Asif, a friend from our group, appeared into sight and started shouting instructions.

"Hold his leg tightly!" he shouted.

The blood pouring from his leg made my hand sticky and I was sure he would fall. Thankfully, we made it out of there; and with the help of a belt, stopped the profound bleeding. I knew he was going to make it out alive but his face would have been disfigured for life.

Two injuries happened amongst the midst of terror, including Ali', but I thank God for my friends sticking out for me.

MOM, WITHOUT YOU I AM NOTHING

A child without his mother is the same as 'a man without its soul'. A 'Mother' is a person who takes care of his children in each and every aspect of his child's life. The role of a mother is very critical and important in the life of every child. And the importance of my mother was realized by me when my mother had to go to Islamabad and me and my father had to maintain all the things which were maintained by my mother. My mother went to Islamabad abruptly. And after her, me and my father had to manage all the things. We had to cook food, iron our clothes, and the most important thing was to get ready for school on time and I just did not know that how me and my father managed all that and how we spent those days without my mother. The only things that I remember is that when my mother came back. I just started crying and said my mother:-

"Mom, I am nothing without you."

FRIENDS FOREVER

Relatives are not chosen by you as they are God-gifted, but friends are chosen by you and mainly they have the same likes and dislikes. Friends are those with whom you spend your time in daily life, therefore the idea of friendship in children tends to be more heavily focused on areas such as common activities and shared expectations. Benefits of friendship include the opportunity to learn about empathy and problem solving.

Friends are part of life but still other relations are also important. So, friendship is important to build the character of a person but still bad friends can spoil us too. We should actually aspire to make good friends because good friends help you to gain something new and they also discourage you when you have done some misdeed. In tough times, only a true good friend helps you, so the old age adage goes true, **"A Friend in need is Friend indeed"**

Like sometimes we need help in studies, so mainly friends help us to do it and a true friend never leaves his friend behind.

Once I had a friend in Bahria Town School and we were best friends, we shared lots of things with each other. We used to spend so much time with each other and also used to play our favourite game "Clash of Clans" together. I don't know how but after some mishap, we became worst enemies and he started plotting against me. He conspired to one of my classmates named Mubashir, that Ismail had used bad words against his father. At home time, he strangled me but my life was saved miraculously by the teacher whom I didn't know. From that time on, I started to ignore him even till now, although he apologised to me but I never accepted his apology; because once the bond of friendship is broken, it cannot be mended. We should not share our deepest secrets with our best friends even because good friends can also turn into worst enemies

Many people walk in and out of our life but only true friend will leave footprints in our life. Sara is my best friend. We are neighbors. In summer holidays we planned a trip together. We went to Rawlacoat which is located in Azad Kashmir. It is also my home town. We both went with our families. We reached there sound and safe. after having lunch, we started exploring that beautiful place.

While exploring I realized at a point that we left our families behind. I tried to remain calm but sara could not handle the situation she became panic and stated running here and there, then she stumbled and fell in a big hole. She started cursing and blaming me. She stated using harsh words and accused me. I got hurt badly. I decided to go back but when I reached halfway, a sudden thought hit my mind. I recalled a beautiful memory in my mind with my mother where she told me forgiveness is the best revenge so went back and managed to get her out of that hole. She was so impressed by my behavior and apologized. I forgave her because you can't treat people the way they treat you as our holy prophet (PBUH) even forgave his worst enemies and hugged them. Moral

گردہ علی کو لگایا جا سکتا ہے۔ جب کہ اس کا احمد کی زندگی پر کوئی خراب اثر نہ ہوگا۔ لہذا احمد نے خوشی خوشی اجازت دیدی کیونکہ وہ علی کو بھی اپنا بیٹا سمجھتے تھے۔ ڈاکٹر نے گردہ کی پیوند کاری کی تاریخ دے دی اور اگلے دن ڈاکٹر نے پیوند کاری کی اور وہ کامیاب ہو گئے۔ جب یہ خوشخبری اسکے گھر والوں کو دی تو احمد کے والدین کے چہروں پر جو خوشی کی لہر آئی وہ ناقابل فراموش ہے۔ سب لوگوں نے اللہ تعالیٰ کا شکر ادا کیا۔ جب تک ایسے درد مند لوگ دنیا میں زندہ ہیں انسانیت قائم رہے گی۔

FRIENDS FOREVER

“John” and “Amna” are the best of buddies. They both use to play, study and go to school together. One day John and Amna wanted to celebrate their decade of friendship and decided to go to picnic in a park. All arrangements were made by the two besides juices, cookies, etc. Both enjoying the weather spread the sheet on lush green grass and kept their basket.

When John was taking out the cakes from the basket. He heard someone shouting for help. Both got frightened. Where Amna insisted to go back home. John decided to help that person.

“May be that man needs our help Amna” John said.

“But, I am really scared” Amna said.

“You stay here and let me see where is this voice coming from” said John.

Taking slow and firm steps, John reached the bush

where he could hear some noise. The moment he moved the leaves of bushes to his surprise he saw a boys and a girl of his age standing together but in a very frightened posture. Further John noticed that there was a very big, fat making in front of them who was snatching a bag from the girl's hand. John used his wisdom them. He knew that monkeys are very good at copying. He picked up a small rock from the ground and threw away very far, hence diverting the monkey from the kids. Copying John, monkey threw the bag from the girls hand little. The monkey ran towards the side of the park. Boy and girl ran and picked up their bag & spread away. Both boy and girl thanked John and told him that they had come to the park to celebrate their friendship. The monkey saw them and wanted to take their bag full of chocolates etc. that's how co-incidentally they also came to celebrate their friendship.

MOM, WITHOUT YOU I AM NOTHING

The summer was at their peak. Everyone tried to say indoors to save themselves from the worth of the excessive heat. As much as I would have liked to remain in bed and read a book, I could not do that. After the summer vacations; I had my first term exams and I had to prepare for them.

I was then in 9th and as it was a board class, there should have been some positive stress on me, But, when I recall correctly, I was totally unruffled by the upcoming exams. I was for sure a carefree student and never gave time much importance.

My parents and grandparents always use sensitize me about the significance of time. They used to remind me quite often that time once lost never come back. I however, never paid much attention to it.

The whole summer vacation, my one hand held my syllabus book while the things in the other hand varied from different gadgets to various novels. In those three months, I finished reading twenty novels but only did two chapters of my physics book.

When the school reopened after the summer vacations; the date of our exams was announced and we had only one week. I was still unmoved despite

the fact that I hadn't studied at all.

Anyways, I studied a little that. I could in one week and through that I was ready to get the first position. If you had asked me how confident I felt at that time, I would have said with unwavering assurance that If I were to be placed in a competition with the world geniuses, I would have gotten the first place.

Anyhow, I appeared in the papers. Mama used to ask me about my preparation before every paper. I would assure her that would I make her very proud.

Undoubtedly, she is proud of me but at that time I was not quite making her feel like that. When my result was announced, I had barely passed in my science subjects, when as my marks in the arts subjects weren't very good either. I was shocked to see such a bad result for me in my preparation was perfect but my papers weren't perfect for the teachers.

My mother asked the reason for such a bad result from my teachers and all they said was that my concepts were clear but I seriously lacked the technique to attempt the paper. Moreover, I also missed the important details.

I was extremely disappointed. My grades had never been so bad but seeing this, I was crushed.

It was a time when my mother could have gone depressed and disappointed but I found her to be very calm. Her composure even scared me. Had she yelled at me, perhaps I would not have felt so bad but seeing her quite, made me feel extra guilty.

I recalled the time my family used to tell me about the importance of time but to which unfortunately, I did not pay any heed.

Despite such happening, my mother still stood by me. She supported me. She helped me study. She remains awake with me through the nights if excessive studying. She was there for me when no one else was.

I appeared in the tests again after studying under the supervision of my mother. I surprised everyone. I scored ninety three percent marks. All of my teachers were perplexed at this sudden improvement. Subsequently, I even scored very high in my board exams. Now, when I look back, I relied upon that I could have not done so well without my mom.

It is true that without our mothers we are nothing. They make us everything we are.

TRIBUTE TO APS MARTYRS

They sprung and wished to rise,
To the future of success and sacrifice.
Where laughter once rang, I now hear fire,
Where once they played, their corpses now lie.
With bright faces and hardworking minds,
They all planned to change the world,
Who knew such tragic and horror they awaited?
They tried to save themselves,
But there was no place to hide.
Father failed to see his kids living their dreams,
Mother waited for her children since morning with
Dreams.
No one could bear such a pain,
But no matter what, it was still Allah's decision.
They were going but always be remembered,
I pray for the late souls gone so soon,
Their killer will be punished and doomed.
What has become of this mankind dear young?
Cheerfully National Anthem was last they sung

HOME WITHOUT MOM

A home is nothing without mom. I just thought that this was just a nonsense but I came to know that it is the reality, when my mom left me at home with my father and my two brothers. In the beginning I was very happy and made so many plans that I will do in the absence of my mom. Yesterday, she went to my grandmother's home. She is very responsible when it comes to us so, she gave us chores to do for the whole week. My younger brother was in charge of making tea. I had to do laundry for the whole week. My elder brother was in charge of making food. He always has millions of ideas to irritate me. The next day, he cooked spaghetti for us, when I took a bite one of the meatballs was ice cold and it broke my teeth. Dad was in the office at work, so I did not want to disturb him. After an hour or two I was well. The next day I got a test of algebra. I begged dad to teach me algebra but he said he is going to work. I said dad please take us to some restaurant but he said that I am very busy today, so I cannot go out today. I did not eat anything for the last two days. Today, when I was washing our clothes, I needed washing powder, during finding the washing powder suddenly I saw the place, where my mom hides some snacks. So, I ate all by myself. When I

Come home I was really happy to see mom. So, I realized that home without mom is nothing. It is very hard to even imagine that how my life would be difficult without mom. As she is a constant source of comfort and energy for my whole day. She is a person whom I call in all situations of my life. Without a mother a home is just like a flower without fragrance. My mother is the bone of my spine keeping me straight and strong. She is the beat of my heart, I can not imagine my life without her as someone very well said:

A mother is she who can take the place of all others but whose place no one else can take.

I really missed my mom at every moment because I have not suffered from that tough time in my whole life. I pray to Allah keep my mom always with me as she is the biggest blessing of Allah in my life.

DO YOU AGREE SOCIAL MEDIA DESTROYS HUMAN INTERACTION AND REAL LIFE HUMAN RELATIONSHIP?

Social media has become such an important organ of our lives, we find difficult to function well without it. The thing is, social media is actually a ray of hope, if and only if, we understand the correct meaning of it. Only if we use it properly. So many things can be made from it. Researches increase in information, online studies and jobs. Does majority use it for these?

See, the extreme misuse of social media is what causing the destruction of oh so precious relationships the day by day increasing race of fashion, uploading each and every single thing etc. This all is creating a distance between families. To us, social media has only been limited to updating Facebook dps, coolest photos on Instagram, OH and the 360 selfies on the snap chat. All the gossip about celebrities, fashion, music, movies etc has made our generation so hooked up they barely spend time with each other. Whatever we do nowadays is just for the sake of social media. The addiction is so strong, we put our mobiles away for like 5 minutes and then pick it up again. This is the factor majority which is a distance between families. The generation spends so much time on mobiles, wait, even the elders that they don't even know each other's feelings. The living room, dining table, bedrooms all have people with their noses in that little, rectangular screen it's like, we are close to each other but at the same time, very far away. Firstly, it is the jealousy and competition, what with the siblings' goals, wedding goals, travel goals, food goals, fashion goals and so many other goals. Everyone struggles so hard to get the most rating, likes and comments filled with OMG there are

people who travel and upload, who attend or arrange fancy weddings and then upload, and go to expensive restaurants and upload the pics of food and then there are people who can't afford this they don't have opportunities so they become jealous and complexes and start questioning to their parents and other relations. They want to maintain the standard of society anyhow. Teenagers who don't have such frank parents, siblings, when they see the (fake) happy photos on the media, they dislike their relations even more. Everybody is so keen to follow the trends of society; they have forgotten what actual happiness was. The actual happiness is not uploading a picture with your mom with the caption "Mother daughter goals" But to actually spend quality time with her. Secondly nothing is left, private. Parents scudded you? Status uploaded. Had a fight with your sister/friend?

Status uploaded. You have a fever of 104 c and about to die? Status uploaded. Cleaning up the house with the broom forcedly? status uploaded. So, the matter that was supposed to be between 2 to 3 people, is now so open people actually start interviewing. All this is causing so much depression inertly but again, due to the media and its gossips, they don't have time to express this to each other. Busy Parents with their own business, children busy in their own business. So, we need to change all of this. Let put aside the social media of likes, ratings, gossip, hot talk, trends and spend time with each other. The beauty and learning present in spending quality time with your relations has no other substitute.

ماں کے بغیر میں کچھ نہیں

جب میں چھ سال کا تھا میری امی فوت ہو گئی۔ میں امی کی موجودگی میں بہت ذہین تھا۔ امی جان بھی میری پڑھائی پر بہت توجہ دیتی تھیں۔ میں ہر کلاس میں فرسٹ آتا رہا۔ لیکن امی جان کی اچانک موت نے مجھے غمزدہ کر دیا۔ میں ہر ٹائم پریشان رہتا تھا امی کی یاد میں پڑھنے کا دل نہیں کرتا تھا۔ ہر قسم کی پریشانی نے مجھے گھیر لیا۔ لیکن میں جوں جوں بڑا ہوتا گیا میرے ذہن میں خیالات بھی بدلتے رہے۔ میں ہر نماز کے بعد سوچنے کے بجائے امی کی مغفرت کی دعا کرتا رہا۔ اسی دعا کی بنا پر اللہ نے مجھے اپنے کرم سے نوازا۔ میرا پڑھائی میں بھی دل لگ گیا۔ اور آہستہ آہستہ نمبر بھی اچھے آنے لگے۔ بچپن میں میں سوچتا رہا کہ میں ماں کے بغیر کچھ نہیں ہوں میرے گھر کی ساری رونقیں ختم ہو گئیں ہیں۔ لیکن میری پیاری امی کی وفات کے پانچ سال بعد کلاس میں میری پوزیشن آئی ہے۔ اب مجھ پہ اللہ کا کرم ہے۔

اللہ پاک میری امی جان کو جنت الفردوس میں اعلیٰ مقام عطا فرمائے! آمین۔

MOM, WITHOUT YOU I AM NOTHING

Having the feeling that you have someone who is always by your side is the best feeling in the world. I remember the day when my father died in a car accident. It was the saddest day of my life and after that we had to face a very severe financial crisis. We became so poor that we had very little to eat. My mother had to sell all her jewelry to pay my school fees. Due to this she became very strict and miser. She never bought anything that I needed even for my studies because it was too expensive. Because of all these problems, I started to get very limited and angry on my mother and never talked to her with the respect she was owed. One night when I was studying in my room, I realized that my mother had not come back from the market. I became very worried and called her many times. But just then a sudden urge to check my mother's room distracted me and I started to look around her room. But when I opened a drawer, I found something that surprised me greatly. I found a drawer which had some money inside and a label which said "For my daughter." After seeing this I felt very ashamed of myself that I was so rude to the person who never thought about anyone else except her daughter. Later I promised myself that no matter

what happens I would always cherish my mother and everything that she had done for me and my future.

MOM, WITHOUT YOU I AM NOTHING

“Oh, mom please! I am getting late.....”. I jumped down the stairs and took my bag. I left for school without making my bed and washing my dishes. After six hours of school, I entered the house and slammed the main door behind me, careless. “Mom I’m home! And I am really hungry”. I shouted at the top of my voice and threw my bag on one side of the sofa while taking off the socks and throwing them in another direction of the living room. Usually, my mom would cry in frustration at me for not putting the bag and the socks on their proper place however today, there was no reply from mom which made me a little anxious I searched every room but I couldn’t find her and then. I saw a note on the fridge which read “Your

grandmother is not feeling well so, I am going to look after her for two days at least”. I cried all my hungers vanished for a brief moment I sighed and stomped off to my room. Soon the door slammed open and my elder brother entered. “aren’t you going to cook dinner”?

He inquired “What? Why you do it! I don't even know how to boil an egg” I made a face. I had finally understood how much work our mothers do for us each day, and sadly, we never thank them. No one in your life will ever love you as your mother does. There is no love as pure, unconditional and strong as a mother’s love. And I will never be loved that way again.

PAKISTAN PAYS TRIBUTE TO THE MARTYRS OF ARMY PUBLIC SCHOOL

TRIBUTE TO APS MARTYRS

The day which was a shock for this entire realm, when
little ones left in a sudden whelm,

For assassins it might have been a shot on the spot,
But they didn't know that a pen is mightier than a sword,

Those little lives who had to live more,
Left a message for this extensive core,

Bloodshed everywhere, the terrans shivered,
the voice of the souls could still be heard,

Salute to those parents whose hearts suffered a lot,
Literally inexpressible how their strengths have fought,

Tribute to those heroes who give their lives,
As for the nation they have become our pride,

The bright stars will continue to shine,
As Long as God give strength to this mankind.

MY FLAG

It is the symbol of hope and courage
It is the symbol of my nation

Created by a few brave men
As a refuge for all Muslims

Blessed with God's greatest wonders
Protected from all things bad

Provided with all of heaven's fruits
Blessed with the best scenery ever

Such a small country
Powered by the brightness of one star

The crescent is like a sword
Protecting us from our enemies

May it lever falls down
And stay high in the sky

This is the-symbol of our nation
This is the symbol of Pakistan

MOM, WITHOUT YOU I AM NOTHING

'My source of inspiration. My guide and mentor' As we grow older. We could find someone to look up to .Someone to admire. A special person the most influential person in my life. Her presence mean that always be the strong person .This person means the world to me. She is none other than my mother. My mother, my love, my world, my heaven, my faithful guide and companion right from the moment I was born.

'There is no replacement of mother with anything in the whole world'

Once upon a time, there was a boy and he was 9 years old. He was a special child and very different from others. His mother had always been his greatest supporter. When he was 4 years old, his father died in a car accident. From that day his mother played a role of father as well as role of mother in his life. One day, that boy came home from school and gave a paper to his mother. He told her that his teacher gave that paper to him and told him to only give it to his mother. 'Youth fades, love drops, the leaves of friendship fall, mother secret love outlive them all' His mother's eyes filled with tears as she read the letter aloud to her child. "Your son is a genius. This

school is too small for him and does not have enough good teachers for his training. Please teach him yourself". His mother taught him that hard work is like a vector quantity. It needs not only magnitude but also proper direction.

'Mothers hold their children's hands for a short while, but their hearts forever'

Many, many years late, his mother died and he was looking through old family things. Suddenly he saw a folded paper in the storeroom. He took it and opened it up. On the paper was written "Your son is mentally ill. We won't let him come to school anymore" 'Mother love is unbeatable and incomparable' Boy cried for hours and said "my mother was the first to recognize any of my talents and encourage me to done them and made me scientist". Then he cried with happiness and joy and said 'Mom without you, I am nothing'

'The most beautiful necklace a mother can wear is not gold or gems but her child's arm around her neck'

I love my mother as the trees love water and sunshine.

'Always love your mother. You will never get another'

The beauty once always on his face, his smile
The dimples which then *appeared* on his sides
Never were seen after a day of Green, Red and White
The reason just because his smile resembled his friend's
Writing an unwritten word, to the question he assumed
Which no one would ever see, the right or wrong, being produced
The moment when his fellow's hand
Which, holding a bloody pen in a broken red hand
One moment his body, his arm tensed on finishing his exam as a student
The next moment finishing the Creator's exam, but as a martyr
On the day when his fellow's smile became still
And his smile, upon his beloved's sight faded
Because always he and his friend were the last benchers
The moments, he and his friend bent down and laughed at each other
Now he doesn't because smile.
It will remind him of his friend's smile
So, don't ask where he goes
On the unawaited day's approach.
In the graveyard, he spends and shares with his friends and teachers
The grievances that once he but otherwise considered
Only for that grave and its resident's memories
His smile, his bloom from the heart still lies
The day he spends half with his friend, half with his teachers
On whose graves his trembling hand spreads the rose petals
Together they were since they wore the same undergarments
He was the peacock, his friend the peacock feathers, his beauty
The peacock's beauty, its tail has been cut now
by some cowards who envied his beauty, the black crows
Pray that the peacock feathers, now grows
Pray that some signs of recovering, his wounded friend shows
His friend was the only person close to a brother, he had
He still remembers the sight of A.P.S, its board looming in the distance ahead.
Together they entered, together they left
Until the day they entered, and then when he left alone
On the day of Green, Red and White
When the house of knowledge was a dreadful sight
Just pray O' companion, the peacock's feathers re-grow
Just pray some signs of recovering the wounded friend shows.

درِ نبیؐ یہ سب عقیدت نظر کردوں
ثناءِ مصطفیٰ میں یہ عمر بسر کردوں
کیوں کر نہ کہوں نعتِ طحہ و یسین کی
ذکرِ مرسلین سے اپنی زباں کو ہر دم سخنور کردوں
راہِ مصطفیٰ میں پلکیں بچھا کر
کیوں نہ خود کو دیدہ ور کر دوں
میں ہر دم یہ آرزو پُر اصرار کروں
زیارتِ رخسار کو جاں بھی نثار کردوں

نئی منتخب کردہ گورنمنٹ موجودہ مسائل کو حل کر پائے گی

مسائل کی فہرست بنائی جائے تو لا تعداد مسائل سامنے آئیں گے یہاں ہم روشنی صرف ان مسائل پر ڈالیں گے جن کا حل پاکستان کی عوام اور معیشت کے لیے سنگ میل ثابت ہوگا۔

ہم شروع سے اپنے بچوں کو یہ سکھانے کی عادی ہیں کہ ”پانی زندگی ہے“ مگر نجانے کیوں ہمارے حکمرانوں کو یہ بات سمجھنے میں اتنی دیر لگ گئی۔ بڑے بوڑھے کہتے ہیں کہ ادھار محبت کی قینچی ہے۔ اور پاکستان محبت کا تعلق قائم کرنے میں ناکام رہا۔ روز بروز اس مزید بڑھتے ہوئے قرض کو خدا کرے ہم اپنی زندگی میں ہی اترنا دیکھیں مجھے اپنے بڑوں سے یہی گلہ ہے کہ وہ اپنے غیر دانشمندانہ فیصلوں سے اپنی آنے والی پود کو کافی نقصان پہلے ہی پہنچا چکے ہیں۔

اگر موجودہ گورنمنٹ صرف ان سنگین مسائل پر قابو پائے تو قائد کا پاکستان دوبارہ تشکیل پاسکتا ہے مگر اقبال کے مرد مومن کو بھی اس میں بھر پور حصہ ڈالنا ہوگا مشہور مقولہ ہے کہ ”جیسی عوام ویسے حکمران“ اگر عوام اپنی اعمال کو درست کر لے تو حکمران خود بخود اچھے ہو جائیں گے۔

میری دعا ہے کہ اللہ تعالیٰ پاکستان کو ان کامیابیوں سے روشناس کرائے جو اس کے وہم و گمان میں بھی نہیں ہیں (آمین)

اللہ تعالیٰ نے انسان کو اشرف المخلوقات بنایا مگر انسان، انسان نہ بن سکا، اپنی ذمہ داریاں اور مخلوق خدا کے حقوق ادا کرنے میں وہ اس قدر پیچھے رہ گیا کہ انسانیت شرمندہ ہو کر رہ گئی۔ حقوق اللہ کے سوال سے پہلے انسان کو حقوق العباد کی آزمائش سے گزارا جائے گا۔ عصر حاضر میں حکومت حقوق العباد کی سب سے بڑی ضامن ہے۔

کسی بھی حکومت کی ذمہ داریاں اس کے لوگوں کی خوشی سے مطابقت رکھتی ہیں۔ آج کی حکومت کو جو مسئلے درپیش ہیں ان کی نوعیت گزشتہ دور سے مختلف تھی مگر حضرت عمر رضی اللہ عنہ جیسی حکمرانی حضرت علی رضی اللہ عنہ جیسی درویشی اور صلاح الدین ایوبی جیسی حکمت عملی کی ضرورت ہر دور کے حکمران کو رہی ہے۔ گورنمنٹ بھی انہی حکمرانوں کا منبع ہے جنہیں اس دنیا میں عوام کی فلاح و بہبود کے لئے بھیجا جاتا ہے۔

یہ بات تو کسی دور میں کو بھی معلوم ہوگی کہ نئی گورنمنٹ نئے ابھرنے والے مسائل پر قابو پاسکے گی یا نہیں مگر یہ بات یقینی ہے کہ جو لوگ دوسروں کے لئے آسانیاں پیدا کرتے ہیں اللہ تعالیٰ ان کے لیے آسانیاں پیدا کرتا ہے اسلامی جمہوریہ پاکستان کو سب سے برے دن غیر معیاری سیاست نے دکھائے اسی طرح اگر ملک پاکستان کے

Oh, I can't tell how
it feels when you wave,
My flag, hands holding you
are bold and brave,
My heart is filled with
joy and pride,
Whenever I see you flying
far and wide,
May God keep you superior in
all battlefields,
The green is so beautiful and
the white is so bright,
You are our sign of integrity; right?
I pray your crescent and star
will always shine,
As your dignity of course
Is mine.

MY FLAG

Peaceful, silent, yet patriotic,
Wishes to make a great nation!
Dreams of the uplift of its community.
Wants to keep its nation strong.
It wonders about life without its enemy.
It fears the downfall of its own people.
It is afraid of the strengthening of its enemy.
It believes that its nation is the best!
It loves to be remembered.
It plans about the lives of its people.
My flag is really unique!

تم کیا جانو کتنی ماؤں کی آنکھ بھر آئی ہے
ہزاروں ماؤں کے دلوں پہ چھری جو چلائی ہے
تم کیا جانو ہم نے عزت جو پائی ہے
ہماری منزل کی راہ میں دیوار جو بنائی ہے
تم کیا جانو، ہم نے اپنی منزل جنت میں پائی ہے
اللہ کے نام تم نے بندوق جو اُٹھائی ہے
تم کیا جانو، آج انسانیت کی موت آئی ہے
تکبیر بول کر ہماری گفتگو جو مٹائی ہے
تم کیا جانو، ہم نے بھی خراج تحسین پائی ہے

خراج تحسین اے۔ پی۔ ایس کے شہداء کو

جب تک دنیا باقی ہے تم زندہ ہو
اے میرے وطن کے شہزادو تم زندہ ہو
خوشبو کی طرح اے پھولو، تم زندہ ہو
ہر ماں کی تم آنکھوں میں
ہر باپ کے ٹوٹے خوابوں میں
ہر بہن کی اُلجھی سانوں میں
ہر بھائی کی بکھری یادوں میں
تم زندہ ہو تم زندہ ہو
ہم تو تم کو بھول نہیں سکتے
یہ یاد ہی اب تو جیون ہے
ہر دل میں تمہاری خوشبو ہے
ہر آنکھ تمہارا مسکن ہے
جن کو بھی شہادت مل جائے
وہ لوگ امر ہو جاتے ہیں
یادوں کے چمن میں کھیلتے ہیں
خوشبو کا سفر ہو جاتے ہیں
تم بچھے نہیں ہو، روشن ہو
ہر دل کی تم ہی ڈھرن ہو
کل تک تو بس ایک ہی گھر کے باسی تھے
اب ہر اک گھر میں بستے ہو، تم زندہ ہو
اے میرے وطن کے شہزادوں، تم زندہ ہو

MY FLAG

My dearest, dearest flag,
You are so mean to me
So worthier and costly

Listen, I want to be
The hardy, courageous warrior,
To preserve your honor

Your fame and dignity,
Would never be vanished
For it we have promised

With the star and moon!
You will be high
Up above the sky
I pray, your reputation,
Also, your prominence,
May never fall down

May you be aromatic like a flower,
May you not feel fervour,
And, spread only amour forever

May Allah keep you great,
Magnific, magnificent and magnate,
With dignified power and courage.

When it flies, it makes me delighted!

It represents our country Pakistan,
With a flair and beauty of its own,
We respect it from Kashmir to Baluchistan,
It tells about our peaceful tone.

Green represents Muslims, white is for minorities,
It represents the two's equality,
And tells our nation's priorities,

A: I have the perfect son.
B: Does he smoke?
A: No, he doesn't.
B: Does he drink whiskey?
A: No, he doesn't.
B: Does he ever come home late?
A: No, he doesn't.
B: I guess you really do have the perfect son. How old is he?
A: He will be six months old next Wednesday.

Man: I could go to the end of the world for you.
Woman: Yes, but would you stay there?
Man: I offer you myself.
Woman: I am sorry I never accept cheap gifts.
Man: I want to share everything with you.
Woman: Let's start from your bank account.

Once all the engineering professors were sitting in one plane. Before the takeoff, one announcement came "This plane is made by your students" Then all professors stood up, ran and went outside. But the principal was sitting. One guy came and asked, "are you not afraid"? Then the principal replied "I trust my students very well and I am sure the plane won't even start".

استاد: تمہارا ہوم ورک کہاں ہے؟
شاگرد: میری بہن نے اس کا جہاز بنا لیا تھا۔
استاد: چلو! مجھے وہ جہاز دکھاؤ۔
شاگرد: سر وہ ہائی جیک ہو گیا۔

ایک دیہاتی مسافر نے کسان سے کہا ”اگر آپ اجازت دیں تو میں آپ کے کھیت میں سے چلا جاؤ کیونکہ میں نے 04:30 والی ٹرین کو پکڑنا ہے۔ کسان نے کہا ضرور چلے جاؤ لیکن اگر میرے پالتوں کتے نے تمہیں دیکھ لیا تو 3:30 والی ٹرین کو بھی پکڑ لو گے۔

ایک شاگرد گدھالے کرا گیا۔
استاد: یہ گدھا کیوں لائے ہو؟
شاگرد: آپ ہی تو کہتے ہیں کہ میں نے بڑے بڑے گدھوں کو انسان بنایا ہے۔
میں نے سوچا اسکی بھی زندگی بن جائے گی۔
